The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

NOTIFICATION.

CHARITABLE ENDOWMENTS ACT, 1890.

No. 434 T.M.—The 11th May 1906.—Whereas application has been made to the Government of Bengal by Samanta Raj Narayan Das, Samanta Radha Chandra Das, and Samanta Radha Gobind Das, all of Balasore, zamindars, that the immoveable properties of which particulars are contained in the First Schedule hereunder written may be vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal upon the trusts, for the purposes, and subject to the conditions specified in the Second Schedule hereunder written:

Notice is hereby given that an order is proposed to be made by the Government of Bengal, after the expiration of one calendar month to be computed from the first publication of this notice, vesting the said properties in the said Treasurer of Charitable Endowments upon the terms aforesaid. Any objections to the proposed order or suggestions thereon may be submitted in writing to the Secretary to the Government of Bengal, Municipal (Medical) Department before the 15th day of June 1906.

The First Schedule above referred to.

Two-thirds (or ten annas eight pies) share of zamindari right in the estate named Purusotompur Kothmul, pargana Banohas, thana Gope, bearing tauzi No. 364 in the revenue-roll of the Puri district, the proportionate Government revenue now payable in respect whereof amounts to Rs. 275-5-4.

The Second Schedule above referred to.

1. The Endowment hereby created shall be called "Samanta Raj Narayan Das' Endowment for feeding the lepers in the Puri Lepor Asylum."
2. The Trustee to be appointed under section 5 (1) of the Charitable Endowments Act, 1890, to administer the said properties shall be the Collector for the time being of Puri (hereinafter referred to as "the said Collector").
3. The Treasurer of Charitable Endowments for the territories subject to the Government of Bengal (hereinafter referred to as "the said Treasurer") shall stand possessed of the properties of which the particulars are contained in the First Schedule above written (hereinafter referred to as "the said properties") upon trust (subject to any special order which he may receive from the Government of Bengal) to permit the said Collector to have the possession, management, and control of the said properties, and the application of the income thereof, as if the said properties had been vested in the said Collector.
4. The person for the time being having the possession, management, and control of the said properties shall have full power to let the said properties or any part thereof from time to time, for such period, and on such terms, and conditions, and to make any

allowances to or arrangements with tenants, as he shall think fit, with liberty to accept surrenders of tenancies, and generally to do all acts and things necessary in connection with the management and development of the said properties as he in his discretion shall deem advisable, and as if he were the absolute owner thereof, without being responsible for any loss or damage that may happen thereby, and with power to delegate either expressly or by implication during such period or periods, and upon such terms, as he shall think fit the exercise of all or any of the powers herein contained to any Subdivisional Officer or Deputy Collector in the service of Government without being responsible for any loss occasioned thereby. The several powers hereinbefore contained may be exercised either in relation to the undivided share mentioned in the first schedule above written solely or in conjunction with the person or persons entitled to or having power in that behalf over the other undivided parts or shares of and in the said premises or in relation to the entirety of the said premises, and so that in the latter case any rents, expenses, outgoings, or other moneys may be apportioned in such manner as the person for the time being having the possession, management, and control of the said properties as aforesaid shall think fit.

5. The person for the time being having the possession, management and control of the said properties shall out of the rents, income, and profits thereof pay or cause to be paid all costs and expenses of and incidental to the collection of the same, and the management of the said properties, the Government revenue, cesses, taxes, and other outgoings payable in respect of the said properties, and any other costs and expenses duly incurred by him or the said Treasurer in carrying out the trust hereby declared, and any fees for the time being payable to Government under section 13 (b) of the Charitable Endowments Act. If the person for the time being having the possession, management, and control of the said properties shall be the said Collector, he shall apply the residue of the rents, income, and profits of the said properties in the manner mentioned in clause 6 hereof, but if not, he shall pay the said residue of the rents, income and profits to the said Collector, by whom the same shall be applied as mentioned in clause 6 hereof.

6. The said Collector shall apply the said residue of the rents, income, and profits of the said properties in or towards the cost of providing food for the lepers of the said Leper Asylum by the purchase of Mohaprasad Bhog from the temple of Jagannath or, if at any time such Mohaprasad Bhog or a sufficient quantity thereof shall not be procurable or for any other reason it shall not be possible to proceed in the manner mentioned, in such other way as to the said Collector in his absolute discretion shall seem best, provided always that it shall be lawful for the said Collector to pay the said residue of the rents, income, and profits of the said properties or any part thereof to the President for the time being of the Committee of the said Leper Asylum for the purpose of the same being applied for the purpose and according to the provisions of this clause.

7. The said Collector shall in books to be kept by him regularly enter or cause to be entered full and true accounts of all moneys received and paid by him as such trustee, and shall submit to such public servant, in such form, and at such times as the Local Government may from time to time appoint and prescribe, an abstract of such accounts, and such returns in regard to any matters connected with the administration of the trust as the Local Government may require.

Resolution by the Government of India, Public Works Department.

Decision that exchange compensation allowance shall be admitted to officers recruited in England for the Engineer Establishment of the Public Works Department, in and after the year 1907, only while serving in the Assistant and Executive Grades.

READ —

Resolution by the Government of India, Public Works Department, No. 1101 E. dated the 25th August 1905.

Despatch to His Majesty's Secretary of State for India, No. 422, dated the 28th December 1905.

Despatch from his His Majesty's Secretary of State for India, No. 13 P. W., dated the 9th March 1906.

RESOLUTION.—The pay of the Administrative grades of the Engineer Establishment of the Public Works Department having been materially improved under the orders contained in the Resolution quoted in the preamble, it is considered that the grant of exchange compensation allowance, hitherto admissible to such officers, under Finance Department Resolution No. 2422 Ex., dated the 31st May 1897, should be discontinued. The Governor-General in Council has therefore decided, with the approval of His Majesty's Secretary of State for India, that the grant of exchange compensation allowance to the Engineer Establishment of the Public Works Department shall, in case of Civil Engineers

recruited in England, in and after the year 1907, be admissible only while serving in the Assistant and Executive grades.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma, and Eastern Bengal and Assam, Public Works Department.

The Honourable the Chief Commissioner of the Central Provinces.

The Chief Commissioner of Coorg.

The Honourable the Resident at Hyderabad.

The Honourable the Agents to the Governor-General for Central India, Rajputana and Beluchistan.

The Honourable the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province.

The Accountant-General, Public Works Department.

The Secretary, Railway Board.

and that it be published in Part I of the *Gazette of India*.

Ordered also that a copy be communicated to the Finance Department.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The 12th May 1906.

No. 53 Marine.—It is hereby notified for general information that, under the provisions of section 15 of the Calcutta Port Act, 1890, Mr. H. R. Schuler, of Messrs. Ernsthausen, Limited, has been elected by the Bengal Chamber of Commerce to be a Commissioner of the Port of Calcutta, *vice* Mr. Wm. Bleek, who has been permitted by the Commissioners to be absent from their meetings from 12th April 1906 to 11th October 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The 14th May 1906.

No. 54 Marine.—In exercise of the power conferred by section 10 of the Bengal Smoke Nuisance Act, 1905, the Lieutenant-Governor proposes to make the following rules for carrying out the purposes of the Act. The rules will be taken into consideration on the expiry of three months from this date, and the Lieutenant-Governor will be glad to consider any suggestions or observations which may be made by any person concerning them within that period.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

1. The Commission shall meet for the transaction of business ordinarily once in every month.

A fee of Rs. 32 shall be paid to each member of the Commission attending any meeting of the Commission.

2. Such meetings shall be held upon such day and at such hour as the Commission shall from time to time determine.

3. The President, or the member of the Commission to whom, in his absence, he may delegate his duties, may, whenever he thinks fit, and shall, upon request made in writing by not less than three members of the Commission, call a special meeting of the Commission.

4. At every meeting of the Commission four members shall constitute a quorum.

5. (a) At least five days' notice of all meetings shall be given to every member. Such notice shall be sent by post or by such other method as may be convenient:

Provided that the accidental failure of service of notice on any member shall not invalidate the proceedings of any meeting.

(b) The notice shall set forth the business to be transacted at the meeting, and no business other than that so stated shall be transacted, except with the consent of the majority of the members present.

6. The President shall preside at every such meeting. In his absence, the members present at any meeting may choose one of their number to preside.

7. The President of any meeting at which a quorum of the Commission shall be present, may, with the consent of the majority, adjourn the meeting from time to time and from place to place.

8. An adjourned meeting is not competent to transact any business save that which the original meeting left unfinished. An adjourned meeting, being merely a continuation of the original meeting, does not require any fresh notice.

9. When a meeting is adjourned for want of a quorum, the adjourned meeting shall have power to dispose of all matters before such meeting, whether a quorum is present or not.

10. Minutes of the proceedings of all meetings of the Commission shall be drawn up and entered in a book to be kept for the purpose and shall be submitted at the next ordinary meeting and, when approved, shall be signed by the President of such meeting.

11. The President may, if he thinks fit, require that every motion and amendment be duly put in writing and be proposed and seconded, before it is considered by the Commission.

12. Unless not less than four members of the Commission consent by signing a requisition, no subject once disposed of can be reconsidered within six months.

13. (a) Whenever necessary, the votes of the members of the Commission present in meeting shall be taken by the President, and the resolution supported by the greater number of votes shall be deemed to be the resolution of the Commission at such meeting.

(b) The President shall have a second or casting vote in all cases of equality of votes:

Provided that when votes are taken, any member present may require that the votes given on each side shall be recorded.

14. The Commission shall have power to give leave of absence, to any nominated member, for a period of not more than three months. Absence for a longer period shall be reported to Government for filling up the vacancy.

15. A copy of the minutes of every meeting of the Commission shall, as soon as possible, be transmitted to the Local Government or to such officer as the Local Government may direct. They shall also be supplied to each member of the Commission.

16. The Commission may, from time to time, in accordance with a resolution passed at a meeting, appoint Committees of their members for carrying into effect any part of the provisions of the Act, with such powers, and under such instructions, directions or limitations, as by such resolution shall be defined; and on any such Committee two members shall be a quorum, and the Commission in meeting shall have power to alter or discontinue any such Committee.

17. (a) The Commission may, from time to time, prepare, and in meeting sanction a schedule of the staff of officers and servants whom they shall deem it necessary and proper to maintain for the purposes of the Act.

(b) Such schedule shall also set forth the amount and nature of the salaries, fees and allowances which the Commission in meeting sanction for each such officer or servant.

18. The pay and leave allowances of the officers and servants of the Commission shall be regulated by the Civil Service Regulations, so far as they apply:

Provided that the Commission may require such officers and servants to contribute to a Provident Fund to be established under such rules as may be approved by the Commission.

19. (a) The power of appointing, promoting, suspending, dismissing, fining, reducing or granting leave to the officers and servants of the Commission shall be exercised by the President of the Commission in the case of officers and servants whose monthly salary does not exceed Rs. 100; and in every other case by the Commission in meeting:

Provided that all orders passed by the President under this rule shall be reported to the Commission at its next meeting.

(b) Appeals against the order of the President of the Commission shall lie to the Commission.

20. For the purposes of section 9 of the Act, the authority of the Commission shall be exercised by the President or by any of the members to whom he may delegate his duties during illness or absence from Calcutta.

Provided that any action taken by the President under section 9, or by the member to whom his duties under section 9 are delegated, shall be reported to the Commission at their next ordinary meeting.

21. The Commission may submit reports, whenever necessary, to the Local Government, as to the specification of any areas within which certain trades and manufactures may be prohibited under section 6 of the Act.

22. The President of the Commission, or in his absence any member named by him, shall peruse the reports and diaries submitted by the Inspectors, and issue necessary orders in accordance with the provisions of the Act, and such reports and diaries shall be laid before the Commission at the monthly meetings.

23. The Inspectors shall—

- (a) report, when necessary, to the Commission on the specification of the areas within which certain trades and manufactures may be prohibited under section 6 of the Act;
- (b) draw up and submit to the Commission a list of furnaces to be inspected under section 9 (a) of the Act;
- (c) keep records of the inspection of furnaces, and of the observations on the smoke emitted therefrom;
- (d) submit diaries for the information of the Commission;
- (e) carry out the orders of the Commission as to reporting offences against the Act and taking the authority of the Commission before prosecution; and
- (f) carry out orders of the Commission in respect of the inspection of any particular furnaces and in other respects generally for the purposes of the Act.

24. The density of smoke emitted from a furnace shall be determined by reference to Ringelmann's Smoke Gauge according to the scales described below:—

Ringelmann's Smoke Gauge consists of six squares, corresponding to scales, upon a white back-ground—

Scale 1—Consists of a white square which has no black lines across it and which is all white

Scale 2—Consists of a white square with black lines drawn across the white back-ground, vertically and horizontally 1 mm. in width and 9 mm. apart.

Scale 3—Consists of a white square with black lines, similarly drawn, 2·3 mm. in width and 7·7 mm. apart.

Scale 4—Consists of a white square with black lines similarly drawn, 3·7 mm. in width and 6·3 mm. apart.

Scale 5—Consists of a white square with black lines similarly drawn, 5·5 mm. in width and 4·5 mm. apart.

Scale 6—This square is entirely black.

The squares described in this scale, if held at a distance of from 30 to 40 paces from the observer, present the appearance of blacks and greys of varying density, with which the colour of the smoke emitted from a furnace may be compared.

25. The smoke emitted from a furnace or furnaces shall be held to be the smoke emitted from the chimney connected therewith, and its density for the purpose of these rules shall be observed at its exit from the chimney.

26. The emission of smoke from a chimney in greater density and for a longer period than prescribed in the following table shall be an offence under section 8 of the Bengal Smoke Nuisance Act, 1905:—

| | Scale 6 | Scale 5. | Scale 4. |
|---------------------------|-----------------------|-----------------------|-----------------------|
| | Per hour. Minutes. | Per hour. Minutes. | Per hour. Minutes. |
| For one furnace ... | 1 | 2 | 3 |
| For two furnaces ... | 2 | 3 | 4 |
| For three furnaces ... | 3 | 4 | 5 |
| For four or more furnaces | 4 | 5 | 6 |

27. In lighting up fires in furnaces, double the amount of the time prescribed in the above scale is allowed during the first two hours from lighting the furnaces.

28. The furnaces of ocean-going steamers shall not be held to be furnaces within the meaning of the Bengal Smoke Nuisance Act for a period of two hours from their lighting up for the purpose of raising steam prior to leaving the port or to moving from one place to another thereof.

29. Smoke shall not be emitted from a furnace at a lower altitude than 100 feet:

Provided that this rule shall not apply in the following cases:—

- (1) Furnaces in portable or travelling engines.
- (2) Furnaces in engines installed for temporary purposes.
- (3) Furnaces in steam-vessels.
- (4) Any other furnaces specially exempted by the Commission.

30. When it appears to an Inspector that an offence has been committed under the Act in respect of any furnace, he may serve the owner of such furnace with a written warning by registered post. This warning shall inform the owner of the furnace of the time and date of such offence and shall be accompanied by a copy of the record of the observations taken, and it shall inform the owner that if the offence is again committed after the expiry of a period, which shall not be less than ten days, a prosecution under the Act will be instituted against him :

Provided that if in the opinion of the Inspector material alterations in the furnace are necessary, or appliances require to be fitted to the furnace, the period of warning may be extended to four months.

31. Records shall be kept of the observations of the smoke emitted from each furnace under the signature of the Inspector who has made the observations.

These records shall be open to inspection, free of charge, by the owner of any furnace during office hours.

32. A number shall be given to each chimney, and the number of each chimney, from which smoke is emitted in greater density or for longer periods than prescribed by the above rules, shall be reported to the Commission.

The 14th May 1906.

No. 55 Marine.—It is hereby notified that the Lieutenant-Governor has been pleased, under section 16 of the Calcutta Port Act, 1890, to appoint Captain F. H. Elderton, D.S.O., R.I.M., to be a Commissioner of the Port of Calcutta, *vice* Captain W. Chandler, R.I.M., resigned.

CALCUTTA UNIVERSITY.

NOTICE.

In January 1902, Babu Jogendra Chandra Ghosh, Member of the Senate, offered to place at the disposal of the Calcutta University Government Securities of the nominal value of Rs. 10,000 of the Loan of 1865 for the encouragement of the study of Comparative Indian Law by persons belonging to what is called the Adhyapak class in Bengal, and for the purpose of establishing out of the annual income of the fund a prize to be awarded to the writer of the best essay on the subject under the following conditions:—

(i) By Comparative Indian Law shall be meant the Hindu Smriti Sastra, called *Vyabahrkhand* and a comparison of the standard Sanskrit authorities on the subject with British Indian Law as contained in Parliamentary Statutes, Regulations and Acts of the Indian Legislative Councils, and the Law as laid down in Leading Cases. The study, which it shall be the object of the Prize to encourage, is the History of the Hindu Smriti Sastra as it existed at and from the time when India came under British rule and how and to what extent it has been altered under British influence, regard being had not only to the existing Statutes, Regulations and Acts, but also to those which, having been in operation for a time, have now been repealed or become obsolete, and regard being also had not only to the existing Leading Cases but to cases which were considered Leading at one time, but have now been overruled, and how and to what extent such alteration has affected Hindu Society.

(ii) The essay at the discretion of a Committee consisting of the Vice-Chancellor for the time being of the University, the President of the Faculty of Law and the Principal of the Government Sanskrit College in Calcutta, may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof; but in no case shall an essay be entitled to competition which in any way attacks the religious beliefs, usages or institutions of His Majesty's subjects. And it shall be in the province and discretion of the said Committee to (a) make a detailed programme of studies for the proposed prize, (b) name the subject of the essay for any one particular year, and (c) decide whether such prize shall be awarded every year or at longer intervals.

(iii) By *Adhyapak* shall be meant scholars of the Smriti Sastra, students of Smriti in the Government Sanskrit College in Calcutta, and in the tols or indigenous Brahmanical schools which send in candidates for the Title Examinations held in that College and students in other similar institutions in India.

(iv) The essay or essays shall be written either in English or in Bengali; but if any competitor sends in an essay in any vernacular language other than Bengali he shall be bound to furnish an English translation thereof.

(v) The adjudicators for the Prize shall be the Vice-Chancellor of the University, the Chief Justice of Bengal, the President of the Faculty of Law and the Principal of the Sanskrit College in Calcutta. They shall be entitled to consult experts of their own selection to assist them to (a) decide whether the essay or essays in competition is or are of sufficient merit to deserve the prize, (b) award such prize, (c) decide about the number of manuscript copies of each essay to be sent in by the successful competitors, and (d) consider the ways and means for the publication of any essay or essays.

(vi) The Prize shall be called the "Research Prize in Comparative Indian Law."

The offer was thankfully accepted by the Syndicate at their meeting held on the 8th February 1902.

The next prize will be awarded in January 1909.

The value of the prize will be Rs. 1,000.

The subject for the year 1909 will be—

Discuss the effect of unchastity on the status of a Hindu female, with special reference to the following points:—

(a) Does it affect her right of succession to her husband?

(b) Does it divest the state previously inherited by her from her husband?

Candidates are required to send their essays to the Registrar, Calcutta University, on or before the 1st day of July 1908, and to send four copies of their essay, type-written, whenever practicable.

SENATE HOUSE,
The 1st May 1906.

[Published under the authority of Government of Bengal conveyed in their order No. 54T.—G., dated the 18th April 1906.]

NOTICE.

OFFICE OF DIRECTOR OF PUBLIC INSTRUCTION, UNITED PROVINCES.

Dated Allahabad, the 26th January 1906.

THE Local Government having, approved of an application made by the Hon'ble Munshi Madho Lal of Chowkhamba, Benares, that a sum of Rs. 45,000 be vested under the designation of the "Sadho Lal Scholarship Endowment Trust, Benares," in the Treasurer of Charitable Endowments for the territories subject to the said Local Government to be applied in trust upon the terms that the interest accruing thereon be expended in the payment of scholarships for the higher study of Sanskrit at the Government Sanskrit College, Benares, on certain conditions, the following is published for general information:—

- (1) that, save as hereinafter provided, three or a lesser number of scholarships, each of which shall be tenable for four years, be awarded every alternate year by a committee consisting of the Principal of the Government Sanskrit College, Benares, as Chairman, and one of the Professors of the Sanskrit College to be jointly nominated by the Hon'ble Munshi Madho Lal (or the head of his family) and the Principal of the Government Sanskrit College, and the head of the family of the founder (the Hon'ble Munshi Madho Lal), as members or by a majority thereof;
- (2) that the scholarships shall ordinarily be of the value of Rs. 20 per mensem each, tenable from such a date as the aforesaid committee or a majority thereof may decide, but that the committee or a majority thereof shall have power to raise or reduce the amount of the scholarships, or any of them, provided that no scholarship shall be less than Rs. 10 per mensem, nor more than Rs. 50 per mensem;
- (3) that one scholarship annually shall be given to a Vernagar Nagar Brahmin, or a Gujrati Panch Dravid Brahmin, provided that the applicant is a graduate of an Indian University or an Acharya or Teeratha or having equivalent qualifications who shall satisfy the committee that he has reached a sufficient degree of proficiency in Sanskrit and English to carry the study of Sanskrit higher, and that he intends to do so; and to become acquainted with the methods of linguistic research followed by European scholars, and with the achievements and progress of European scholarship;
- (4) that the other scholarships, and if no qualified Vernagar Nagar Brahmin or Gujrati Panch Dravid Brahmin candidate be forthcoming, the aforesaid scholarship shall be given to Brahmin graduates of any Indian University or Brahmin Acharyas or Teerathas or persons having equivalent qualification who shall satisfy the committee that they have reached a sufficient degree of proficiency in Sanskrit and English to carry their studies of Sanskrit higher, and that they intend to do so, and to become acquainted with the methods of linguistic research followed by European scholars and with the achievements and progress of European scholarship;

- (5) that the holders of the scholarships shall in all matters obey the orders of the committee, or of a majority thereof, who shall have power to withdraw scholarships at any time;
- (6) that if the full number of scholarships be not awarded, or if from any other cause savings accrue, such savings shall be devoted to encouraging the study of Sanskrit in any manner which the committee may unanimously approve, or shall be added to the endowment;
- (7) that the holders of the scholarships shall be called "Sadho Lal Scholars," and that on the completion of the term of their scholarships to the satisfaction of the committee their names shall be forwarded to the Registrar of the Allahabad University.

2. Applications for these scholarships should be made in writing to the Principal, Government Sanskrit College, Benares.

Director of Public Instruction,
United Provinces.

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 2nd and 3rd July 1906, at 10-30 A.M., both days:—

| SUBJECTS. | Full marks. | Minimum pass marks. |
|---|-------------|---------------------|
| Writing (neatness, clearness, and rapidity) ... | 100 | 50 |
| Dictation (spelling, punctuation, etc.) ... | 100 | 50 |
| Arithmetic (the whole) ... | 240 | 160 |
| Mensuration (a) the whole ... | 60 | 30 |
| Book-keeping (b) mercantile ... | 100 | 50 |
| Total ... | 600 | ... |

Minimum required in all papers
collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the *place* and *hour* of examination, with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable estab-

lishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or birth) not required if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of application of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten.

SIBPUR,
The 5th May 1906.

B. HEATON,
Principal, Civil Engineering College.

GEOLOGY AND MINERALS.

Simla, the 21st April 1906.

No. 2968—82.—In exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), the Governor-General in Council is pleased to make the following rules for application to all coal-mines in British India in continuation of Notification No. 864—68-20, dated the 10th March 1904:—

II.—Rules regarding certificates, the conditions on which they are granted, and the qualifications which the managers of the various classes of mines must possess.

Rule 27.—For the purposes of rules 28 to 54, every system of underground workings interconnected in such a manner that communication is practicable from any one part of a system to any other part by means of underground channels shall be deemed to constitute a mine. If access from one system of underground workings to another such system is not practicable without coming to the surface of the ground, each such system shall be deemed to constitute a separate mine.

Rule 28.—There shall be constituted a Board of Examiners for the purposes of these rules, which shall consist of the Chief Inspector of Mines for the time being, and of two other persons possessing technical qualifications fitting them to serve on the Board. One of these persons shall be the owner or manager of a mine, the other shall be a mining engineer. They shall be appointed by the Governor-General in Council for a term of three years:

Provided that on the expiry of any term for which he has been appointed, any such person shall be eligible for re-appointment. Each such person shall receive such remuneration as the Governor-General in Council may fix. The Chief Inspector of Mines shall be ex-officio President of the Board.

Rule 29.—Certificates under these rules shall be granted by the Board of Examiners, and their decision regarding the grant of such certificates shall be final. Certificates granted by the Board shall hold good throughout British India, and shall be of two kinds, namely, certificates of competency and certificates of service, and of two classes of each kind, namely, first and second class.

Rule 30.—Certificates of competency shall be granted to candidates after such examination as the Board of Examiners may from time to time prescribe. The examinations shall

be held at such times and at such centres as may from time to time be fixed by the Board, and shall be conducted by local examiners, who shall be appointed by the Board. The local examiners as appointed shall be subject to the orders of the Board in respect of all matters relative to the conduct of the examinations, and they shall receive such remuneration as the Board, with the sanction of the Governor-General in Council, may fix. The Board may from time to time make regulations as to the conduct of such examinations; and they shall, so far as this is practicable, take steps that the standard of knowledge which a candidate must attain before he obtains a certificate of competency of any particular class shall be uniform throughout British India. Every regulation made by the Board under this rule shall be published in the local official Gazette, and no such regulation shall take effect until six months from the date on which it was first so published.

Rule 31.—Full information regarding the date and place of each examination shall be published, under the orders of the Board of Examiners, in each issue of the local official Gazette, and in such other publications as the Board may consider desirable, for a period of not less than three months prior to the date fixed therefor.

Rule 32.—No person shall be admitted as a candidate at any examination for a first class certificate of competency unless he has attained the age of 23 years, and has satisfied the Board of Examiners that he has had practical experience in a coal-mine for a period of not less than five years:

Provided that this period may be reduced to three years, if the Board of Examiners think fit, in the case of a candidate who has received a diploma in scientific and mining training after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

Rule 33.—No person shall be admitted as a candidate at any examination for a second class certificate of competency unless he has attained the age of 21 years, and has satisfied the Board of Examiners that he has had practical experience in a coal-mine for a period of not less than three years:

Provided that this period may be reduced to one year, if the Board of Examiners think fit, in the case of a candidate who has received a diploma in scientific and mining training after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

Rule 34.—A fee of Rs. 15 shall be paid by every candidate attending an examination for a first class certificate of competency and a fee of Rs. 8 shall be paid by every candidate attending an examination for a second class certificate of competency.

These fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office.*

Rule 35.—The Board of Examiners may grant without examination to any person holding a first or second class certificate granted under any Act for the regulation of mines for the time being in force in the United Kingdom, or in any British Colony, a certificate of a similar class under these rules. They may also grant to any person holding a certificate of proficiency in mining, if approved by them, a certificate under these rules of the first or second class, if they are satisfied that the applicant possesses sufficient knowledge and experience to warrant them in doing so:

Provided that the applicant has in every such case adduced proof to the satisfaction of the Board of his identity and good character.

A fee of Rs. 5 shall be charged in respect of all applications for certificates to be issued under this rule. The fee shall be paid to the Chief Inspector of Mines, and the application for the grant of a certificate shall not be considered by the Board until the Chief Inspector of Mines certifies that the fee chargeable has been paid.

Rule 36.—A first class certificate of service may be granted by the Board of Examiners to any person who satisfies them that he has acted for at least five years prior to the date fixed in rule 48 as the manager of a coal-mine in India, in which during the time he has so acted as manager more than 150 persons have on an average been employed below ground simultaneously, or the average output of which has exceeded 1,800 tons of coal a month:

Provided that the said period of five years may be reduced to three, at the discretion of the Board of Examiners in the case of any such certificate which may be applied for before the 21st day of April 1908.

Rule 37.—A second class certificate of service may be granted by the Board of Examiners to any person who satisfies them that he has acted for at least three years prior to the date fixed in rule 48 below as the manager of a coal-mine in India in which, during the time he has so acted as manager, more than 50 persons were on an average employed underground simultaneously or the average output of which exceeded 600 tons of coal a month.

Rule 38.—Notwithstanding anything in rule 36 or 37, a certificate of service of either class may be granted by the Board of Examiners at their sole discretion to any person who is, in their opinion, possessed of sufficient knowledge and experience to warrant them in granting such a certificate.

Rule 39.—All applications for certificates of service shall be addressed to the Chief Inspector of Mines, and shall state the name, age, place of birth, and place of employment of

* NOTE.—The fees may be remitted by money-order or paid in any other manner.

the applicant. The length and character of the mining experience possessed by the applicant shall also be detailed, and this statement shall be supported by the production of such documents as the applicant may be in a position to furnish.

Rule 40.—A fee of Rs. 5 shall be paid in respect of each application for a certificate of service of either class. This fee shall be paid to the Chief Inspector of Mines at his office.*

Rule 41.—Permits authorising particular persons to hold charge as managers of mines of the class described in rule 47 may be granted by the Chief Inspector of Mines at his sole discretion. Such permits shall be signed by the Chief Inspector of Mines, and shall remain in force for such period, not exceeding one year, as he may specify therein. A permit may be cancelled at any time by the Chief Inspector of Mines without assigning any reason for his action, and such order shall be final. The Chief Inspector of Mines may renew any permit for a further period not exceeding one year after the expiry of the period for which the permit was originally granted.

Rule 42.—A register, showing the names and addresses of all holders of certificates or permits issued under these rules, shall be maintained in the office of the Chief Inspector of Mines.

Rule 43.—If any person proves to the satisfaction of the Board of Examiners that he has, without any fault on his part, lost or been deprived of a certificate granted to him under these rules otherwise than in accordance with any order made under rule 44, the Board of Examiners may, upon such terms and conditions as they may determine, cause a copy of the certificate to which the applicant appears by the register to be entitled, to be delivered to him. The word "Duplicate" shall be stamped across every such copy, and a fee of Rs. 2, which shall be payable in advance, to the Chief Inspector of Mines at his office shall be charged for it.

Rule 44.—If at any time a representation is made by the Chief Inspector of Mines to the Local Government that the holder of a certificate granted under these rules has been guilty of misconduct or incompetency in the discharge of his duties, or has been convicted of an offence under the Indian Mines Act, 1901, or the rules made under that Act, punishable with fine which may extend to Rs. 500, or with imprisonment which may extend to three months, the Local Government may cause an inquiry to be made into the matter; and with respect to such inquiry the following provisions shall have effect, namely:—

- (a) The inquiry shall be public, and shall be held at such place as the Local Government may appoint, and by such person or uneven number of persons as it may direct (hereinafter referred to as 'the Court'), either alone or with the assistance of any assessor or assessors named by the Local Government. Such assessors shall be practical mining engineers or persons with a knowledge of the practical working of mines. The functions of the assessors shall be purely advisory, and they shall not be regarded as members of the Court.
- (b) The Local Government shall, before the commencement of the inquiry, furnish the person whose conduct is under inquiry with a copy of the representation on which the inquiry is instituted.
- (c) The Local Government may appoint any person to undertake the management of the case.
- (d) The person whose conduct is under inquiry may attend the inquiry, and may either conduct his case personally or be represented by any other person approved by the Court.
- (e) If a majority of the persons constituting the Court thinks fit, the person whose conduct is under inquiry may be required to deliver up his certificate at any time before or during the inquiry, and such person shall be bound to comply with such requisition, unless he shows sufficient cause to the contrary.
- (f) The Court shall, on the conclusion of the inquiry, send to the Local Government a report containing a full statement of the case together with its opinion thereon, and such account of or extracts from the evidence as it may think fit; and, if it considers that the certificate in question should be cancelled or suspended, it shall add a recommendation to that effect. In the event of the members of the Court disagreeing in their opinion or recommendations, the dissentient or dissentients from the opinion of the majority may forward a separate report to the Local Government with a statement of their recommendations.
- (g) After considering the report or reports and recommendation or recommendations (if any) submitted under clause (f), the Local Government may cancel or suspend the certificate and, if it does so, the fact of such cancellation or suspension shall, if the certificate is produced, be endorsed upon it, and, if it is not produced or if at any time a duplicate has been granted under rule 43, be notified in the *Gazette of India* and in the local official *Gazette*.

Rule 45.—Save as provided in rules 49 and 50, no person shall act as manager of a mine in which more than 150 persons are on an average employed underground simultaneously, or the average output of which exceeds 1,800 tons a month, unless he holds a first class certificate granted under these rules.

* NOTE.—The fees may be remitted by money order or paid in any other manner.

Rule 46.—Save as provided in rules 49 and 50, no person shall act as manager of a mine in which more than 50 or less than 150 persons are on an average employed underground simultaneously, or the average output of which exceeds 600 tons and does not exceed 1,800 tons a month unless he holds a first or second class certificate granted under these rules.

Rule 47.—Save as provided in rules 49 and 50, no person shall act as the manager of a mine in which not more than 50 persons are on an average employed underground simultaneously, or the average output of which does not exceed 600 tons a month, unless he is the holder of a first or second class certificate, or of a permit, granted under these rules. If the Chief Inspector of Mines should by written order so require, no person shall act as the manager of such a mine unless he is the holder of a first or second class certificate granted under these rules.

Rule 48.—Rules 45 to 47 shall not come into force until the 21st October 1906.

Rule 49.—Notwithstanding anything in rules 45 to 47, the Chief Inspector of Mines may authorise any person, whom he may consider competent, to act as manager of any mine for a specified period, whether that person does or does not hold any certificate or permit under these rules. The Chief Inspector of Mines may revoke such an authority at any time, without giving any reason for his action and at his sole discretion, and such order shall be final.

Rule 50.—Notwithstanding anything in the preceding rules, the owner, agent, or manager of a mine may, in emergent cases, authorise any person whom he may consider competent to act as manager of the mine which he owns, or for which he is agent or manager :

Provided that no such authority shall extend for a period in excess of four weeks, and that the owner, agent or manager shall send to the Chief Inspector of Mines, with the least possible delay, a written notice intimating that such an appointment has been made, (and stating the emergent nature of the circumstances. The Chief Inspector of Mines may revoke any authority so granted, and such order shall be final.

Rule 51.—Save as provided in Rule 52 no person shall act as manager of more than one mine.

Rule 52.—Managers holding first or second class certificates may, at the discretion of the Chief Inspector of Mines, be allowed to manage more than one mine, if the Chief Inspector is of opinion that the mines supervised by them are near enough to one another to permit of effective supervision being exercised, and that an adequate subordinate supervising staff is maintained at such mines.

Rule 53.—(a) The owner, agent, or manager of every mine shall supply the Chief Inspector of Mines, within one month from the date on which these rules come into force, with the following information, namely :—

- (1) The full name and address of each manager; (2) the number and class of the certificates held by them; (3) the names of the mines or particulars sufficient to identify the portions of the mines in the charge of each such manager.

(b) All changes in the addresses of such managers, and all new appointments, shall be reported within one month to the Chief Inspector of Mines. The information referred to in sub-clause (a) above shall also be supplied in writing by the owner, agent, or manager to the Chief Inspector of Mines in respect of all new appointments which may subsequently be made.

Rule 54.—Save as provided in Rules 41, 49 and 50, an appeal may be referred to the Mining Board in respect of any order passed by the Chief Inspector of Mines in virtue of the powers conferred on him by these rules, and the order of the Mining Board thereon shall be final. If no Mining Board has been constituted in respect of the Province or Administration in which the appellant is employed, the appeal shall lie to the Local Government, and the order by the Local Government thereon shall be final.

Sheriff's Sale Proclamation.

TO be peremptorily sold pursuant to a decree and an order of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction, and in execution of the said decree made in suit No. 485 of 1902 (wherein Sreemati Annapurna Debi is the plaintiff and Noni Mohun Bannerjee and another are defendants), and dated, respectively, the 3rd day of September 1903 and the 11th day of July 1905, by the Sheriff of Calcutta in his sale-room on the ground-floor at the Court-house by public auction, on Thursday, the 31st day of May 1906, at the hour of 12 o'clock noon, the vested remainder of the defendant Noni Mohun Bannerjee, subject to the life-interest of his mother, the plaintiff Sreemati Annapurna Debi, in the following properties:—

(1) Premises No. 3 Chowringhee Lane, Calcutta, being a three-storied brick-built house with the land thereunto belonging and on part whereof the same is built, together with out-offices, stables, containing by estimation 3 bighas and 10 chitaks of land, more or less, and forming part of Block No. 17, Holding No. 7 in the south division of the town of Calcutta, and bounded on the east by Chowringhee Lane, on the south by the premises No. 4 Chowringhee Lane, and on the north and west by the premises No. 2 Chowringhee Lane,

Calcutta, and for which and the premises No. 2 Chowringhee Lane aforesaid an annual revenue of Rs. 17-5-8 is payable at the Calcutta Collectorate.

(2) Premises No. 65 Nimtollah Ghat Street, Calcutta, being a partly three and partly two-storied house with the land belonging thereto, and on part whereof the same is built, containing by estimation an area of 2½ bighas, more or less, and bounded on the north partly by Gour Laha's Street and partly by the dwelling-house of Panch Kory Bhattacharjee, on the south by Nimtollah Ghat Street, on the east by the house and premises No. 64 Nimtollah Ghat Street, and on the west by the tenanted house No. 66 Nimtollah Ghat Street, belonging to Bepin Behary Mullick.

So far as appears from a search made in the offices of the Registrar and the Joint Sub-Registrar of Assurances of Calcutta, there is no encumbrance affecting the interest of the defendant Noni Mohun Bannerjee, in the said properties save and except a mortgage, dated the 25th June 1901, from the plaintiff and the said defendant Noni Mohun Bannerjee, to the Revd. L. Hagenback and others of No. 3 Chowringhee Lane aforesaid, and other properties mentioned in the said mortgage deed, but not of No. 65 Nimtollah Ghat Street, aforesaid, which said mortgage was by an instrument, dated the 31st day of August 1904, assigned by the said Revd. L. Hagenback and others to one Rai Amrito Lal Mitter Bahadur, to whom the sum of Rs. 86,496-10-8 with interest thereon at 7 per cent. per annum from the 31st August 1904 with half-yearly rests is due; and (2) Agreement to mortgage, dated the 22nd June 1901, from the said defendant, Noni Mohun Bannerjee, to Kumar Norendra Nath Mitter Bahadur of the said premises No. 3 Chowringhee Lane, Calcutta, subject to the hereinbefore-mentioned mortgage, dated the 25th June 1901, and of other properties mentioned in the said mortgage deed, but not the said premises No. 65 Nimtollah Ghat Street, and there is due to the said Kumar Norendra Nath Mitter, who instituted a suit in this Court against the said Noni Mohun Bannerjee, being suit No. 769 of 1904 on the said Agreement and obtained a decree on the 22nd December 1904, the sum of Rs. 35,083-8 for principal and interest calculated up to the 3rd July 1905, besides costs of suit on scale No. 1 not yet taxed.

The sum for the recovery of which the sale has been ordered is Rs. 973 with interest thereon at the rate of 6 per cent. per annum from the 10th day of December 1905, besides the costs of executing the said decree and the subsequent costs and the Sheriff's poundage and other charges.

The Conditions of Sale may be seen at the Office of the Sheriff of Calcutta on any day before the sale and will also be produced at the time of sale.

THE INDIAN LAW REPORTS.

Published in **FOUR SERIES**, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MAY 16, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 12th May 1906.

W. A. INGLIS,
Secretary, Marine Department.

NEW ZEALAND—NORTH ISLAND, EAST COAST.

Auckland harbour—Beacon established in approach.

No. 155 (first publication).—The British Admiralty has given notice (No. 325 of 1906) that an iron beacon, 20 feet high, painted red, and surmounted by a globe, has been erected at a distance of $7\frac{2}{3}$ miles N. 27° W. from Mount Victoria flagstaff on the outer rock, which dries 3 feet, off Gull Point in the approach to Auckland harbour.

Approximate position on chart No. 1896, lat. $36^{\circ} 42'$ S., long. $174^{\circ} 46'$ E.

(Variation 14° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Tutukaka harbour to Mayor island, No. 2543; Auckland harbour entrance, No. 1896: Also, New Zealand Pilot, 1901, page 48; Supplement, 1903, page 4.

JAPAN, WEST COAST—SHIMONOSEKI STRAIT.

Light buoy marking wreck in western entrance.

With reference to notice to mariners No. 120, dated 12th April 1906, issued by this office, the British Admiralty has given further notice (No. 328 of 1906) that a light-buoy, painted green from which a green occulting light is exhibited, has been secured to the deck of the wreck of the steamship which sank in the western entrance to Shimonoseki strait, in a position from which Wakura jima summit bears N. 59° W., distant $4\frac{1}{2}$ cables, and Mutsure jima light N. 11° E.

Approximate position, lat. $33^{\circ} 57\frac{1}{2}'$ N., long. $130^{\circ} 51\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Shimonoseki strait, Nos. 532, 1578: Also, Sailing Directions for Japan, etc., 1904, page 514.

EASTERN ARCHIPELAGO—BALI ISLAND.

Buleleng road—Intended alteration in light.

No. 157 (*first publication*).—The British Admiralty has given notice (No. 329 of 1906) that it is intended to alter the character of Buleleng road light from fixed to a quick *flashing* light produced by acetylene gas.

Approximate position, lat. $8^{\circ} 5\frac{1}{2}'$ S., long. $115^{\circ} 5\frac{1}{2}'$ E.

Further notice will be given when received.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; Java island, No. 1654; plan of Buleleng road on chart No. 934; Also, List of Lights, Part VI, 1906, No. 511; and Eastern Archipelago Part II, 1904, page 194.

EASTERN ARCHIPELAGO—SUMBAWA.

Sabalana or Postillon islands—Reefs in the vicinity of—.

No. 158 (*first publication*).—The British Admiralty has given notice (No. 330 of 1906) of the existence of a reef, with a depth of less than 3 fathoms over it, in the vicinity of the Sabalana or Postillon islands, situated in a position from which Samberjaga bears S. 61° E., distant $2\frac{1}{2}$ miles, and Sapuka Kachil S. 40° W.

Approximate position, lat. $7^{\circ} 4'$ S., long. $118^{\circ} 12'$ E.

At a distance of $1\frac{1}{2}$ miles S. 58° E. from the above position a sounding of 18 fathoms was obtained, between which and the above reef discoloured water was observed, probably another reef with a depth of about 3 fathoms over it.

(*Variation 2° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; Makasar strait, No. 2637; Lombok to Flores, No. 1696; Also, Eastern Archipelago, Part II, 1904, page 219.

EASTERN ARCHIPELAGO—JAVA—MADURA STRAIT.

Meinderts reef light—Intended alteration in—

No. 159 (*first publication*).—The British Admiralty has given notice (No. 337 of 1906) that it is intended to alter Meinderts reef light from white fixed to *white occulting every twenty seconds*, thus:—light, *ten seconds*; eclipse, *ten seconds*; the new light being produced by acetylene gas.

Approximate position, lat. $7^{\circ} 40\frac{1}{2}'$ S., long. $114^{\circ} 26'$ E.

Further Notice will be given.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; Java island, No. 1654; Also, List of Lights, Part VI, 1906, No. 506; and Eastern Archipelago, Part II, 1904, page 140.

EASTERN ARCHIPELAGO—SUMATRA, EAST COAST—MALACCA STRAIT.

Pagurawan river light—Intended alteration in—

No. 160 (*first publication*).—The British Admiralty has given notice (No. 338 of 1906) that it is intended to replace the two white fixed lights at Pagurawan river by a *white group occulting light every thirty seconds*, thus:—light, *three seconds*; eclipse, *three seconds*; light, *twelve seconds*; eclipse, *twelve seconds*; it will be elevated 49 feet above high water, and visible in clear weather from a distance of 12 miles. The light, which will be of the 4th order, will be exhibited from an iron lattice structure, 42 feet high, painted white, erected in the same position as the existing lights.

Approximate position, lat. $3^{\circ} 25'$ N., long. $99^{\circ} 19'$ E.

Further Notice will be given.

This Notice affects the following Admiralty Charts:—Acheh head to Tyngkok bay, No. 2760; Malacca strait, No. 1355; Diamond Point to Pulo Berkala, No. 1353; Also, List of Lights, Part VI, 1906, No. 406; and China Sea Directory, vol. I, 1896, page 87.

PACIFIC OCEAN—NEW GUINEA, NORTH COAST.

St. Mathias island—Amended position of—

No. 161 (first publication).—The following Notice to Mariners (No. 342 of 1906) issued by the British Admiralty is republished:—

Information, dated 2nd April 1906, has been received from the Board of Trade that Mr. F. W. Davies, Master of the S.S. *Oceano*, reports that St. Mathias island is shown on the chart considerably to the southward of its correct position. As this confirms previous information received on the subject, this island has been moved on the charts $11\frac{1}{2}$ miles N. 26° W. from the position it has hitherto occupied, its northernmost point being placed in lat. $1^{\circ} 17' S.$, long. $149^{\circ} 31\frac{1}{2}' E.$

(Variation 5° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Pacific, No. 780; Australia, No. 2759a; North-east coast of New Guinea, No. 2766: Also, Pacific islands, vol. I, 1900, page 369; and Supplement, 1903, page 33.

CHINA SEA—SOUTH NATUNA ISLANDS.

Seraia island—Non-existence of shoal.

No. 162 (first publication).—With reference to Notice to Mariners No. 48, dated 10th February 1900, issued by this office, the British Admiralty has given further notice (No. 343 of 1906) that a careful seach was made for the $2\frac{1}{2}$ fathoms shoal reported in 1900, and shown on the charts as situated at a distance of one mile N. 47° W. from the south point of Seraia island, South Natuna islands, but no sign of danger was discovered, the sounding being 20 to 25 fathoms in the locality; it has therefore been expunged from the Admiralty publications.

Approximate position, lat. $2^{\circ} 40' N.$, long. $108^{\circ} 33' E.$

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—China Sea, No 2660a; South Natuna islands, No. 2104: Also, China Sea Directory, vol. II, 1899, page 83; and Supplement, 1901, page 4.

AFRICA, EAST COAST—PEMBA ISLAND.

Chaki Chaki bay—Flagstaff disappeared—Buoys withdrawn.

No. 163 (first publication).—The British Admiralty has given notice (No. 345 of 1906) that the flagstaff on Mesale island, Chaki Chaki bay, has fallen down, and will not be re-erected.

Approximate position, lat. $5^{\circ} 14\frac{1}{2}' S.$, long. $39^{\circ} 36' E.$

Also, that the black can buoys formerly situated at distances $6\frac{1}{2}$ cables N. 28° W. and $9\frac{1}{2}$ cables N. 43° W. respectively from Ras Tundauwa flagstaff have been withdrawn. There are some small buoys for local use only which do not appear on the chart, but all buoys in this port are coloured on a uniform system, the port-hand buoys being black and the starboard-hand buoys red when entering. The buoys are painted frequently, but, owing to the number of sea birds perching on them, often present a white top.

(Variation 7° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Chale point to Pangani, No. 1390; west coast of Pemba, No. 1812; Pemba island, south-east coast, No. 1310: Also, Africa Pilot, part III, 1905, pages 437, 438.

EASTERN ARCHIPELAGO—MALACCA STRAIT—SUMATRA.

Brouwers (Browed) strait, northern entrances—Buoyage of.

No. 151 (second publication).—The British Admiralty has given notice (No. 308 of 1906) that the undermentioned buoys have been established in the northern entrance to Brouwers strait in the following approximate positions on chart No. 795:—

- a. A white conical buoy surmounted by a ball situated in lat. $1^{\circ} 52\frac{1}{2}' 0'' N.$, long. $101^{\circ} 49\frac{3}{4}' E.$
- b. A black can buoy situated in lat. $1^{\circ} 46' N.$, long. $101^{\circ} 53\frac{1}{2}' E.$
- c. A black can buoy surmounted by a conical topmark situated in lat. $1^{\circ} 37\frac{1}{2}' N.$, long. $101^{\circ} 55\frac{1}{2}' E.$

This Notice affects the following Admiralty Charts:—Malacca strait, No. 1355; cape Rachado to Singapore, No. 795: Also, China Sea Directory, vol. I, 1896, page 10v.

INDIAN OCEAN.

• *Mauritius island—Shoal soundings to the north-eastward.*

No. 152 (second publication).—The British Admiralty has given notice (No. 312 of 1906) that information, dated 25th February 1906, has been received from Mr. S. de B. Lockyer, Commanding the P. & O. Steam Navigation Company's S.S. *Soudan*, that he obtained on the previous day soundings of 34, 36, and 37 fathoms, coral and rock, about 100 miles to the north-eastward of Mauritius island; the sounding of 36 fathoms being situated in approximately lat. $18^{\circ} 20\frac{1}{2}'$ S., long. $58^{\circ} 43\frac{1}{2}'$ E.

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748a; Chagos archipelago to Madagascar, No. 2899; Also, Islands in the Southern Indian Ocean, 1904, pages 299, 335.

AFRICA, EAST—CAPE COLONY, SOUTH-EAST COAST.

Cape Morgan—Rock south-westward of—.

No. 153 (second publication).—The British Admiralty has given notice (No. 314 of 1906) of the existence of a sunken rock situated at a distance of about 3 miles S. 56° W. from Cape Morgan, Kie river approach. No sounding was obtained on this rock, but a depth of 5 fathoms was found at a distance of 10 yards from it. The danger has, therefore, been placed on the chart in the above position, and marked P. D.

Approximate position, lat. $32^{\circ} 45'$ S., long. $28^{\circ} 20\frac{1}{2}'$ E.

(Variation 27° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Hondeklip bay to port Natal, No. 2095; Waterloo bay to Bashes river, No. 2086; Also, Africa Pilot, part III, 1905, page 158.

AFRICA, EAST—CAPE COLONY, SOUTH COAST.

Cape St. Francis light—Alteration in period of system.

No. 154 (second publication).—The British Admiralty has given notice (No. 315 of 1906) that about the middle of May the period of system of the light (*white flashing*), exhibited from Cape St. Francis, will be altered from twenty seconds to *five seconds*, that is, it will give one flash every five seconds, and its power increased to 120,000 caudles; in other respects it will remain as before.

During alterations a provisional light of the same character as the present light will be exhibited, its light power being 5,000 candles.

Approximate position, lat. $34^{\circ} 12\frac{1}{2}'$ S., long. $24^{\circ} 50\frac{1}{2}'$ E.

This Notice affects the following Admiralty Charts:—Hondeklip bay to port Natal, No. 2095; Mossel bay to Cape St. Francis, No. 2084; Cape St. Francis to Waterloo bay, No. 2085; Also, List of Lights, part VI, 1906, No. 14; and Africa Pilot, part III, 1905, page 120.

EAST AFRICA—CAPE COLONY.

An uncharted shoal.

No. 145 (third publication).—The Master of the S. S. *Congella* reports the existence of an uncharted shoal, about $1\frac{1}{2}$ mile off the shore, with 15 feet on it, in latitude $31^{\circ} 0' 15''$ S., longitude $30^{\circ} 18' 0''$ E.

JAPAN—KIUSIU, EAST COAST.

Saiki bay—Depth on bank.

No. 146 (third publication).—The British Admiralty has given notice (No. 292 of 1906) that a recent examination shows that the least depth on the head of the shoal bank in Saiki bay, situated at a distance of $3\frac{1}{2}$ miles S. 5° E. from Kamodo (Kamado) saki is $5\frac{1}{2}$ fathoms, and not 10 fathoms as shown on the charts.

Approximate position, lat. $33^{\circ} 0\frac{1}{2}'$ N., long. $132^{\circ} 1\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This notice affects the following Admiralty Charts:—Van Diemen strait to Oshima, No. 1648; Bungo channel, No. 651; Also Sailing Directions for Japan, &c., 1904, page 308.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, WEST COAST.

Santa Cruz harbour—Shoal.

No. 147 (third publication).—The British Admiralty has given notice (No. 293 of 1904) of the existence of a shoal, with a depth of 17 feet over it, in Santa Cruz harbour, in a position from which Santa Cruz bell tower bears N. 86° E., distant 1½ miles, and the western extremity of Santa Cruz Point S. 32° W.

Approximate position, lat. 15° 45½' N., long. 119° 52½' E.

This shoal, which is situated about 175 yards to the northward of the track of vessels, is a small coral head 50 yards in extent and steep-to.

(Variation 1° Easterly in 1906.)

This notice affects the following Admiralty Charts:—Santa Cruz harbour, No. 3515; Also Eastern Archipelago, Part I, 1902, page 53; and China Sea Directory, vol. II, 1899, page 319.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, WEST COAST.

Kurrimao, Salomague, Pandan and Kandon—Lights established.

No. 148 (third publication).—The British Admiralty has given notice (No. 294 of 1906) that the undermentioned lights have been established on the west coast of Luzon in the following positions:—

- (a) **PORT KURRIMAO.**—A red fixed light, elevated 27 feet above high water, and visible in clear weather from a distance of 7 miles from the bearing N. 23° E., through east, to S. 50° E., is exhibited from an old fort half a mile to the southward of the village.

Approximate position, lat. 18° 0½' N., long. 120° 30' E.

- (b) **SALOMAGUE HARBOUR.**—A red fixed light of the 6th order, elevated 39 feet above high water, and visible in clear weather from a distance of 9 miles from the bearing of N. 57° E., through east, to S. 67° E., is exhibited from a white frame tower, 34 feet high, erected on the eastern side of the harbour, at a distance of one mile S. 55° E. from the tower on the northern side of the harbour.

Approximate position on chart No. 3283, lat. 17° 46½' N., long. 120° 25½' E.

- (c) **PANDAN.**—A red fixed lantern light, elevated 50 feet above high water, and visible in clear weather from a distance of 7 miles from the bearing of N. 36° W., through north and east, to S. 61° E., is exhibited from a white frame tower, 34 feet high, erected in the village of Pandan.

DONATIONS AND ENDOWMENTS MADE BY PRIVATE INDIVIDUALS FOR PUBLIC PURPOSES DURING THE YEAR 1904.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Darjeeling, the 9th May 1906.

RESOLUTION No. 489T.—M.

THE Lieutenant-Governor has much pleasure in publishing for general information the customary statement showing the donations made by private individuals for public purposes during the year 1904. The statement annexed, which shows all sums of over Rs. 1,000 contributed by private persons, has been compiled from information furnished to Government, and the Lieutenant-Governor avails himself of this opportunity to express his appreciation of the public spirit which the record of the year indicates.

2. The following are the most prominent gifts of the year:—

Raja Jogendra Narain Roy of Lalgola, in the district of Murshidabad, made a munificent donation of Rs. 50,000 for the sanitary improvement of the district as a memorial to his late wife Rani Manindra Mohini Debi, this endowment being treated as a supplement to the Raja's previous endowment of

one lakh for improving the supply of drinking-water in the different districts of Bengal. The Raja also made a gift of Rs. 6,000 for the construction of an outdoor ward in the Berhampore Hospital. Samant Raj Narain Das and his nephews Sumanta Radha Charan Das and Samanta Radha Gobind Das of Balasore made over certain landed properties valued at Rs. 30,000, the income from which is to be applied towards the maintenance of the Charitable Dispensary at Baliapal in the Balasore district and the ward for female patients in the Cuttack General Hospital, and also to the improvement of the supply of water in the Orissa Division. Donations amounting in the aggregate to Rs. 25,445 were made by the Hatwa Raj under the management of the Court of Wards, out of which a sum of Rs. 5,888-13-3 was spent on the construction of the Victoria Hospital at Hatwa and the balance was expended on miscellaneous works of utility in the district of Saran. Babu Bejoy Narain Kundu contributed Rs. 20,000 for a Charitable Dispensary and High English School at Itachona in the district of Hooghly. Babu Dhanapat Singh Nowlakha gave Rs. 16,000 for the erection and equipment of a new building for the Charitable Dispensary at Azimgunge, in the district of Murshidabad. The late Mrs. Khettermoni Dutt bequeathed a sum of Rs. 14,084 8-4 for the benefit of native convalescents at the Medical College and Sealdah Campbell Hospitals, the sum being allotted equally between the two hospitals. Babu Trailokya Nath Adhikari contributed Rs. 13,000 for the establishment of an Entrance School at Panchthupi, in the district of Murshidabad. Maharaja Manindra Chandra Nandi gave Rs. 12,000 for a Charitable Dispensary at Kasimbazar, and Rai Banamali Roy Bahadur made a similar donation for the excavation of a tank at Banwarinagar, in the district of Pabna. Babu Nanda Lal Gorain gave Rs. 10,207 for a school building at Chirkanda, in the district of Manbhum.

The Lieutenant-Governor also gladly acknowledges the further instances of liberality noted below:—Babus Radha Mohun Munshi and Chandra Kishore Munshi of Sherpur, in the district of Bogra, jointly gave Rs. 10,000 for a building for the local High School and a public library. A similar amount was contributed by Babu Kedar Nath Raunia for a Dharamsala at Dinapore. Babu Nemai Charan Das of Chittagong gave Rs. 5,500 for the construction of a male ward in connection with the Chittagong General Hospital. Babu Premanundo Gosain expended Rs. 5,000 on the excavation of a tank at Balugarh, in the district of Hooghly. Babu Ram Gopal Munshi of Nadia gave Rs. 5,000 for a tank at Santipur Garh. Babu Mahima Chandra Rai Chaudhuri of Faridpur gave a similar amount for the establishment of a Charitable Dispensary at Baishrashi, as also did Babu Jawala Prasad Marwari of Gaya for the erection of a Dharamsala and the excavation of a tank at Babhui Dhomar.

It has not been possible to notice individually in this Resolution the remaining donations which are mentioned in detail in the statement, but His Honour is glad to acknowledge the liberality and public spirit displayed by the donors.

ORDER.—Ordered that a copy of this Resolution and of the statement be forwarded to the Revenue, Political, Appointment, Judicial, General, Financial, Legislative, Marine and Public Works Departments of this Government for information.

ORDERED.—Also that a copy of the Resolution and of the statement be forwarded to the Board of Revenue, the Inspector-General of Civil Hospitals, the Sanitary Board and to all Commissioners of Divisions for information.

ORDERED.—Also that the Resolution and the statement be published in the Supplement to the *Calcutta Gazette* and also in the Government Vernacular Gazettes for general information.

By order of the Lieutenant-Governor of Bengal,

H. J. McINTOSH,

Offg. Secy. to the Govt. of Bengal.

General Summary.—During the week under report there was general and moderate rain in the Burdwan and Presidency Divisions, but the fall was light in the Bhagalpur and Chota Nagpur Divisions, while in the Patna and Orissa Divisions it was lighter and scattered. The rain of the week will help the sowing of jute and paddy. More rain is, however, needed in Bihar, Orissa and Chota Nagpur. Some damage to the mango crop by a violent storm is reported from Darbhanga and Purnea. Prospects are on the whole fair. Cattle-disease is reported from nine districts. Fodder and water-supply are sufficient. The price of common rice has risen in four and fallen in three districts. It continues high in most districts, especially in Hooghly, Howrah, Nadia, Jessore, Khulna, Muzaffarpur, Darbhanga, Purnea, Darjeeling and the Southal Parganas.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN EASTERN BENGAL AND ASSAM, FOR THE MONTH OF APRIL 1906.

THE characteristic meteorological features of the month under report stand in some contrast to those of the corresponding month of last year. We have to chronicle generally deficient rainfall and temperature generally about normal against the abnormal cold and excessive rainfall recorded for April of 1905.

At the end of March a shallow low pressure area existed to the east of the United Provinces. This moved in an easterly direction and gave rise to light general rain over the Province on the first two days of the month. The area of lowest pressure remained with slight variations of position to the north-west of the Province up to the 6th of the month, when it deepened somewhat, and, moving in an easterly direction, gave rise to scattered showers in Assam, Lower Bengal, and some cloud over the north and east of the Province. The shallow low pressure area then increased in extent and covered the whole of Bengal, where the pressure became uniform. During the 10th and 11th of the month a shallow low pressure area developed over the Bhagalpur Division, giving rise to a marked cyclonic distribution of winds over Bengal, but causing no rain in the area to which this report is limited. This low pressure area moved to the south-west, and a temporary rise of pressure ensued over the Province. The temperature, which up to this time had been generally below normal, now commenced to rise and remained above normal for the rest of the month over practically the whole Province. The latter half of the month presented the usual broad features of pressure distribution, viz., low pressure to the north-west of the Province, giving an easterly tendency to winds in the north of the Province and a moderately steep gradient over the north-west angle of the Bay, giving rise to south-westerly winds in Lower Bengal and Orissa. Broadly speaking, the pressure variations throughout the month have been small and unimportant and the barometric oscillations recorded below rarely exceeded those that may be usually expected in fine and settled weather. The conditions were at no time very favourable to any indraught of moist air from the Bay, and as a consequence the rainfall over the Province was slight.

Summary of Pressure.—On the first day of the month the pressure was below normal by small amounts over Bihar and Orissa and above normal over the rest of the Province. On the second the barometer commenced to fall, and the pressure sank below normal everywhere. It commenced then to rise slowly, leaving the pressure over the north of the Province somewhat in excess till the 5th of the month. At this point the barometer sunk rapidly, causing pressure to remain in defect till the 9th of the month, when a slow rise brought pressure again into excess over Orissa, Chota Nagpur and the Central Provinces on the 11th. On the 12th of the month a rapid fall over the north-east of the Province and a slow fall over the remainder of the area left pressure again generally in defect by varying amounts which reached as much as 15 of an inch in Assam and North Bengal. On the 14th of the month a rapid rise of the barometer occurred, followed shortly by a general fall, leaving the pressure over the whole area in defect till the 21st, when a gradual rise of the barometer commencing on the 19th brought pressure again into excess over the whole Province except Bihar and North Bengal. This excess was not long maintained, as pressure was again generally below normal on the 24th. After slight fluctuations, the barometer rose slowly on the 28th, and at the end of the month pressure was again in excess, except over a narrow strip to the north of the Province.

Summary of Temperature.—Mean temperature has been in general excess by small amounts throughout the greater part of the month. The average mean of the month exceeded the normal mean in all parts of the area under report except in Assam, where the mean was slightly below normal. The highest temperatures recorded were 111·6 at Bankura, 111·2 at Angul, and 110·9 at Chaibassa.

Summary of Rainfall.—Rainfall was in defect in every Division in the Province. On the 1st and 2nd of the month light showers fell over the whole area. From the 3rd to the 5th of the month rain was reported only from Puri and Darjeeling districts and from Tibet. On the 6th of the month rain fell at isolated stations in Howrah, Khulna, Balasore, Purnea and Darjeeling districts and in Tibet, the amount recorded being, however, trivial in most cases. From the 7th till the end of the month rainfall practically ceased except in Orissa, where a few showers were reported at the end of the month; in the Darjeeling district rain fell at various stations during the first three weeks, and in Yatung, where light rain occurred with more regularity throughout the month.

The following table gives the summary of the temperature of each of the seven Meteorological Divisions of the Province of Bengal and of Eastern Bengal and Assam.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Alipore Observatory. They are exposed under a thatched shed and at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formulae.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

t, thunder; <, lightning; o, overcast; p, passing temporary showers.

NOTIFICATION.

No. 535T.M.—The 14th May 1906.—It is hereby notified that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, VI of 1890, and upon the application and with the concurrence of Babu Nanda Lal Goswami, of Serampore, Zamindar, doth hereby order and direct that the Government securities, of which the particulars are contained in the first schedule hereunder written, shall, from the date of the first publication of this notification in the *Calcutta Gazette*, vest, and be thenceforth vested, in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890 and the rules, from time to time, framed thereunder by the Governor-General in Council) upon trust for ever thereafter to receive the interest, income and profits of the same Government securities when and as the same shall become due and payable, and from time to time apply the same in or towards the maintenance of the "Gobinda Sundari Dispensary" established at Serampore, in the district of Hooghly, on the premises described in the third schedule hereunder written in accordance with the provisions made in that behalf in the scheme, of which the particulars are contained in the second schedule hereunder written, and it is hereby further notified that the said scheme, of which particulars are contained in the said second schedule, shall come into operation on the vesting of the said Government securities in the said Treasurer of Charitable Endowments for the territories subject to the Government of Bengal.

THE FIRST SCHEDULE ABOVE REFERRED TO.

Government promissory notes of the 3½ per cent. loan of 1900 of an aggregate value of Rs. 4,000, Nos. 047190, 047191, 047192 and 047193 for Rs. 1,000 each.

THE SECOND SCHEDULE ABOVE REFERRED TO.

1. The Treasurer of Charitable Endowments for the territories subject to the Government of Bengal (hereinafter referred to as the said Treasurer) shall stand possessed of the Government securities, of which the particulars are contained in the first schedule above written, upon trust to receive the interest thereon when and as the same respectively shall become payable and from time to time to pay the same to the person or persons for the time being acting in the administration of the trust.

2. The administration of the interest of the said Government securities shall be entrusted to the Managing Committee for the time being of the Serampore Charitable Hospital, who shall apply the income to be paid to them by the said Treasurer under clause 1 of this scheme in or towards the upkeep, maintenance and improvement of the dispensary, called or known as the "Gobinda Sundari Dispensary," established at Serampore in the year 1906 on the premises described in the third schedule hereunder written.

3. The said "Gobinda Sundari Dispensary" shall, as far as practicable, be considered as amalgamated with the said Serampore Charitable Hospital, provided that the persons acting in the administration of the trust shall apply the annual interest of the said Government securities exclusively in or towards the upkeep, maintenance and improvement of the said Gobinda Sundari Dispensary.

4. Any portion of the annual interest of the said Government securities which may not be immediately required for the purposes mentioned in clause 2 hereof may be deposited by the persons acting in the administration of the trust in the Post Office Saving Bank, and may, with the resulting income thereof, be subsequently applied by them for such purposes in connection with the upkeep, maintenance and improvement of the said Dispensary as they shall think fit or may be invested from time to time in—

- (a) Promissory notes, debentures, stocks and other securities of the Government of India or of the United Kingdom of Great Britain and Ireland;
- (b) Bonds, debentures and annuities charged by the Imperial Parliament on the revenues of India;
- (c) Stock or debentures of or shares in Railway or other Companies, the interest whereon has been guaranteed by the Secretary of State for India in Council;
- (d) Debentures or other securities for money issued by or in behalf of any local authority in exercise of powers conferred by an Act of a Legislature established in British India;
- (e) Any security authorised by an order made by the Governor-General in Council under section 4, sub-section 3, clause (e) of Act VI of 1890.

In the event of any investment being so made the same shall, if the Local Government so order, as soon as practicable be vested in the said Treasurer upon the trusts declared in the above notification.

5. The said Treasurer may, with the sanction of the Lieutenant-Governor of Bengal, from time to time vary all or any of the investments for the time being vested in him upon the trusts declared by the above notification into or for others of a nature hereby authorized.

6. Subject to this notification the rules of the Government of Bengal for the time being in force relating to the management of Charitable Dispensaries shall apply to the conduct and management of the said "Gobinda Sundari Dispensary."

7. The persons acting in the administration of the trust shall cause to be affixed to, and shall at all times maintain on, the wall of the said dispensary fronting the public road on the north a suitable board, bearing in bold letters the words "Gobinda Sundari Dispensary."

DECLARATION.

No. 620J.D.—The 17th May 1906.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Alkusa siding of the East Indian Railway, taking off from the Damuda Branch of the East Indian Railway, at mile 172 1077 feet from Calcutta, and whereas coal-mines are situate under the said land, and whereas the Kusunda and Nyadee Collieries have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the said mines, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act XVIII of 1885, the willingness of the Local Government to pay compensation to the said Kusunda and Nyadee Collieries, Limited, in consideration of the mines or minerals, or part thereof, being worked or gotten in the manner and subject to the restrictions below specified, viz.—

- (a) that No. 1 incline may be turned approximately in the position shown by the red arrow line A.B. on the plan, continued along the boundary of the Colliery Company's property until the cover from the natural surface to the top of the gallery when driven is not less than 50 feet. From this point a gallery may be driven on the line of strike to the north-west boundary of the land acquired. The incline and the gallery on the strike line shall not exceed 6 feet in height by 6 feet in width.
- (b) No gallery or driving of any kind shall be made on the north-east or rise side of the gallery on the strike line above mentioned.
- (c) On the south-west or dip side of the gallery on the strike line any galleries driven may be not more than 10 feet wide and 10 feet high with centres not less than 60 feet apart, forming pillars not less than 50 feet square, and no gallery may be driven where the distance from the natural surface of the land to the top of the gallery (if driven) would be less than 50 feet, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A. No. 49 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

NOTIFICATION No. 6374.

State Technical Scholarships for Statutory Natives of Bengal tenable in the United Kingdom, on the Continent of Europe or in America.

THE Government of India have for the last two years awarded, on the recommendation of the Government of Bengal, a few Technical Scholarships of the value of £150 a year tenable by Statutory Natives of Bengal, for two years in the United Kingdom, on the Continent of Europe, or in America. Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering are excluded from the scope of the scheme, and scholarships will, in the first instance, be given preferably to students who wish to go through a course of Mining instruction. A few of these scholarships are likely to be available this year also, but no guarantee to that effect can be given at present. Intending candidates are required to submit their applications to the undersigned on or before the 10th June 1906, with certificates as to (1) their moral character, (2) their educational qualifications, (3) their knowledge of the

language of the country in which they may elect to study, and (4) their physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies they propose to take up while in receipt of the scholarships. Candidates for Mining Scholarships should state in their applications whether they have had any actual experience of mining. Government does not guarantee to provide successful candidates with employment on their return to India.

CALCUTTA,
The 18th May 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTICE.

A SCHOLARSHIP, named "Chandra Scholarship," has been founded by Babu Gobinda Chandra Basak, of Dacca. The scholarship was first reserved for the Basak families of the town of Dacca, but it has since been extended to all the Basaks of the whole of Bengal. The first award of the scholarship will be made in 1907. The conditions of the scholarship are—

- (1) That the value of the scholarship will be Rs. 10 a month.
- (2) That it will be tenable for two years in any of the following Engineering College or Schools:—
 - (i) The Civil Engineering College, Sibpur.
 - (ii) Ahsanulla School of Engineering, Dacca.
 - (iii) The Bihar School of Engineering, Patna.
- (3) That the scholarship will be held by one student at a time; and that if a student fails to pass his examination or is found to misbehave within the term of his scholarship, he will forfeit his scholarship and it will be given to another candidate. As a rule the scholarship will be awarded once in every two years.
- (4) That the candidates for the scholarship must have passed the Entrance examination; but in the case of the Dacca School of Engineering a candidate who has passed the Sub-Overseer class examination will be eligible for the scholarship. Preference will be given to candidates who are graduates.
- (5) That the scholarship will not be awarded to a candidate who has obtained a Government scholarship.

CALCUTTA, the 15th May 1906.

[Published under the authority of Government of Bengal conveyed in their order No. 54T.—G., dated the 18th April 1906.]

NOTICE.

OFFICE OF DIRECTOR OF PUBLIC INSTRUCTION, UNITED PROVINCES.

Dated Allahabad, the 28th January 1906.

THE Local Government having, approved of an application made by the Hon'ble Munshi Madho Lal of Chowkhamba, Benares, that a sum of Rs. 45,000 be vested under the designation of the "Sadho Lal Scholarship Endowment Trust, Benares," in the Treasurer of Charitable Endowments for the territories subject to the said Local Government to be applied in trust upon the terms that the interest accruing thereon be expended in the payment of scholarships for the higher study of Sanskrit at the Government Sanskrit College, Benares, on certain conditions, the following is published for general information :—

- (1) that, save as hereinafter provided, three or a lesser number of scholarships, each of which shall be tenable for four years, be awarded every alternate year by a committee consisting of the Principal of the Government Sanskrit College, Benares, as Chairman, and one of the Professors of the Sanskrit College to be jointly nominated by the Hon'ble Munshi Madho Lal (or the head of his family) and the Principal of the Government Sanskrit College, and the head of the family of the founder (the Hon'ble Munshi Madho Lal), as members or by a majority thereof ;
- (2) that the scholarships shall ordinarily be of the value of Rs. 20 per mensem each, tenable from such a date as the aforesaid committee or a majority thereof may decide, but that the committee or a majority thereof shall have power to raise or reduce the amount of the scholarships, or any of them, provided that no scholarship shall be less than Rs. 10 per mensem, nor more than Rs. 50 per mensem ;
- (3) that one scholarship annually shall be given to a Vernagar Nagar Brahmin, or a Gujrati Punch Dravid Brahmin, provided that the applicant is a graduate of an Indian University or an Acharya or Teeratha or having equivalent qualifications who shall satisfy the committee that he has reached a sufficient degree of proficiency in Sanskrit and English to carry the study of Sanskrit higher, and that he intends to do so ; and to become acquainted with the methods of linguistic research followed by European scholars, and with the achievements and progress of European scholarship ;
- (4) that the other scholarships, and if no qualified Vernagar Nagar Brahmin or Gujrati Punch Dravid Brahmin candidate be forthcoming, the aforesaid scholarship shall be given to Brahmin graduates of any Indian University or Brahmin Acharyas or Teerathas or persons having equivalent qualification who shall satisfy the committee that they have reached a sufficient degree of proficiency in Sanskrit and English to carry their studies of Sanskrit higher, and that they intend to do so, and to become acquainted with the methods of linguistic research followed by European scholars and with the achievements and progress of European scholarship ;
- (5) that the holders of the scholarships shall in all matters obey the orders of the committee, or of a majority thereof, who shall have power to withdraw scholarships at any time ;
- (6) that if the full number of scholarships be not awarded, or if from any other cause savings accrue, such savings shall be devoted to encouraging the study of Sanskrit in any manner which the committee may unanimously approve, or shall be added to the endowment ;
- (7) that the holders of the scholarships shall be called " Sadho Lal Scholars," and that on the completion of the term of their scholarships to the satisfaction of the committee their names shall be forwarded to the Registrar of the Allahabad University.

2. Applications for these scholarships should be made in writing to the Principal, Government Sanskrit College, Benares.

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the *place* and *hour* of examination, with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but, if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or birth) not required if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner submit his application through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of application of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten.

SIBPUR,
The 5th May 1906.

B. HEATON,
Principal, Civil Engineering College.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 18th June 1906, corresponding with 4th Ashar 1318 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary rights of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan will be put up to sale at the Burdwan Collectorate on the 27th June 1906, corresponding to 14th Asar 1313 (B.S.).

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of the estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from the 1st April 1906 as revenue free, or subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 16th day after the sale, reckoning the day of sale as one, or if that day be a closed holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estates will be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 18th June 1906, corresponding to 4th Ashar of 1313 (A.S.).

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of the estates will be considered as the proprietors of the estates and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

THE INDIAN LAW REPORTS.Published in **FOUR SERIES**, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

CHINA, EAST COAST—YANG TSE KIANG, SOUTH CHANNEL.

Chung Pao Sha quarantine anchorage—Alteration in buoyage.

No. 165 (first publication).—The British Admiralty has given notice. (No. 359 of 1906) that the two buoys formerly situated $1\frac{1}{2}$ miles S. 6° W. and 1 mile S. $5\frac{1}{2}^{\circ}$ W. respectively from the Sanitary Station, marking the Quarantine anchorage, Chung Pao Sha, Yang tse kiang, would be removed, and that two white spherical buoys would be moored about one mile apart in a depth of 3 fathoms as a guide to vessels using this anchorage, but the position of these buoys is not given.

Approximate position, lat. $31^{\circ} 26'$ N., long. $121^{\circ} 31'$ E.

(Variation 2° Westerly in 1906.)

This Notice affects the following Admiralty Chart :—Approaches to the Yang tse kiang, No. 1602 : Also, China Sea Directory, vol. III, 1904, page 493.

CHINA, NORTH—GULF OF PEI CHI LI.

Peiho river entrance—Alterations in buoys and lights.

No. 166 (*first publication*).—The British Admiralty has given notice (No. 360 of 1906) that on the opening of navigation the following alterations would be made in the buoyage and lighting of the Peiho river entrance:—

- (a) The fairway buoy (conical, surmounted by staff and ball) would be moved about $6\frac{1}{2}$ cables, it is presumed, in a S. 68° E. direction from its former position; it would then be moored about $1\frac{1}{10}$ miles N. 50° W. from the light-vessel. This buoy will be maintained in a position about one mile outside the crest of the bar.
- (b) A light-boat, exhibiting a *white fixed* light, elevated 25 feet above the sea, and named North bank outer light-boat, would be moored on the northern side of the channel at a distance of 3 miles S. 50° E. from North fort.
- (c) The outer red buoy, situated at a distance of $1\frac{1}{10}$ miles S. 26° E. from North fort, would be replaced by a light-boat, exhibiting two *white fixed* lights vertically placed 25 and 19 feet above the sea.
- (d) The leading beacons, situated $1\frac{1}{10}$ miles S. 20° W. from North fort, would be altered to suit the channel, a *red fixed* light, elevated 44 feet above the ground, being exhibited from the inner beacon, and a *white fixed* light, 20 feet above the ground, from the outer beacon. These beacons in line would lead through the channel between the outer and inner light-boats.
- (e) A *white occulting* light of the 6th order, elevated 30 feet above the ground, would be established on a beacon on the site of the old fort.

Approximate position of old fort, lat. $39^{\circ} 0' N.$, long. $117^{\circ} 42\frac{1}{2}' E.$

(Variation 3° Westerly in 1906.)

This notice affects the following Admiralty Charts:—*Li tsing ho to Ning hai*, No. 598; *Peiho river*, No. 2653; *Also List of Lights, Part VI, 1906, page 145; and China Sea Directory, vol. III, 1904, page 609.*

NOTE.—The position of the mouth of the river Choku piyon on the western shore of the bay is some distance further to the southward than shown on the chart.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Chart:—Plan of Cheku pien bay on chart No. 54; Also Sailing Directions for Japan, &c., 1904, page 152.

PACIFIC OCEAN—PHILIPPINE ISLANDS—PANAY, WEST COAST.

Maniguin island light—Character altered.

No. 173 (first publication).—With reference to Notice to Mariners No. 234, dated 28th June 1905, issued by this Office, the British Admiralty has given further notice (No. 393 of 1906) that Maniguin island has been altered from white fixed to a *white group flashing* light, showing groups of two flashes, separated by an eclipse of two and a half seconds every ten seconds: it is elevated 191 feet above high water, and visible in clear weather from a distance of 20 miles. The light, which is of the 4th order, is shown from a concrete tower, 97 feet high, painted grey, with a red lantern.

Approximate position on chart No. 2577, lat. $11^{\circ} 36\frac{1}{2}'$ N., long. $121^{\circ} 40'$ E.

This Notice affects the following Admiralty Charts:—China sea, Nos. 1263 and 2661b; Molucca passage to Manila, No. 943; St. Bernardino and Mindoro straits, No. 2577; and Philippine islands, No. 943: Also, List of Lights, part VI, 1906, No. 634; and Eastern Archipelago, part I, 1902, page 238.

BAY OF BENGAL—BURMA COAST.

Akyab harbours—Alteration in soundings on Outer bar.

No. 174 (first publication).—The following Notice to Mariners (No. 44 of 1906), issued by the Bombay Government, is republished:—

The Port Officer, Akyab, reports that considerably less water has been found on the outer bar of Akyab Harbour than is shown on the Preliminary Chart of Akyab Harbour and its approaches, 1904, and Admiralty Chart, Arakan river, Akyab, No. 1884.

This Notice affects the following Charts:—Admiralty Chart, Arakan river, Akyab, No. 1884; and photozinc preliminary chart, Akyab Harbour and approaches: Also, Bay of Bengal Pilot, third edition, 1901, page 256.

INDIA, WEST—MALABAR COAST.

Cochin harbour—Certain buoys removed for the ensuing monsoon season.

No. 175 (first publication).—The Officiating Presidency Port Officer, Madras, has given notice (No. 6 of 1906) that the Bar and Spit Buoys at the Harbour entrance and the Quarantine buoys in the inner harbour will be removed for the ensuing monsoon on the 15th May 1906, and that the light on the Mallipuram flagstaff will be exhibited from the same date to 30th September next.

NEW ZEALAND—NORTH ISLAND, EAST COAST.

Auckland harbour—Beacon established in approach.

No. 155 (second publication).—The British Admiralty has given notice (No. 325 of 1906) that an iron beacon, 20 feet high, painted red, and surmounted by a globe, has been erected at a distance of $7\frac{1}{2}$ miles N. 27° W. from Mount Victoria flagstaff on the outer rock, which dries 3 feet, off Gull Point in the approach to Auckland harbour.

Approximate position on chart No. 1896, lat. $36^{\circ} 42'$ S., long. $174^{\circ} 46'$ E.

(Variation 14° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Tutukaka harbour to Mayor island, No. 2543; Auckland harbour entrance, No. 1896: Also, New Zealand Pilot, 1901, page 48; Supplement, 1903, page 4.

JAPAN, WEST COAST—SHIMONOSEKI STRAIT.

Light buoy marking wreck in western entrance.

No. 156 (second publication).—With reference to Notice to Mariners No. 126, dated 12th April 1906, issued by this office, the British Admiralty has given further notice (No. 328 of 1906) that a light-buoy, painted green from which a *green occulting* light is exhibited, has been secured to the deck of the wreck of the steamship which sank in the western entrance to Shimonoseki strait, in a position from which Wakura jima summit bears N. 59° W., distant $4\frac{1}{2}$ cables, and Mutsure jima light N. 11° E.

Approximate position, lat. $33^{\circ} 57\frac{1}{2}'$ N., long. $130^{\circ} 51\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Shimonoseki strait, Nos. 552, 1578: Also, Sailing Directions for Japan, etc., 1904, page 514.

EASTERN ARCHIPELAGO—BALI ISLAND.

Buleleng road—Intended alteration in light.

No. 157 (second publication).—The British Admiralty has given notice (No. 829 of 1906) that it is intended to alter the character of Buleleng road light from fixed to a quick *flashing* light produced by acetylene gas.

Approximate position, lat. $8^{\circ} 5\frac{1}{2}'$ S., long. $115^{\circ} 5\frac{1}{2}'$ E.

Further notice will be given when received.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; Java island, No. 1654; plan of Buleleng road on chart No. 934: Also, List of Lights, Part VI, 1906, No. 511; and Eastern Archipelago Part II, 1904, page 194.

EASTERN ARCHIPELAGO—SUMBAWA.

Sabalana or Postillon islands—Reefs in the vicinity of—.

No. 158 (second publication).—The British Admiralty has given notice (No. 330 of 1906) of the existence of a reef, with a depth of less than 3 fathoms over it, in the vicinity of the Sabalana or Postillon islands, situated in a position from which Samberjaga bears S. 61° E., distant $2\frac{1}{2}$ miles, and Sapuka Kachil S. 40° W.

Approximate position, lat. $7^{\circ} 4'$ S., long. $118^{\circ} 12'$ E.

At a distance of $1\frac{1}{2}$ miles S. 58° E. from the above position a sounding of 18 fathoms was obtained, between which and the above reef discoloured water was observed, probably another reef with a depth of about 3 fathoms over it.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941b; Makasar strait, No. 2637; Lombok to Flores, No. 1696: Also, Eastern Archipelago, Part II, 1904, page 219.

No. 160 (second publication).—The British Admiralty has given notice (No. 338 of 1906) that it is intended to replace the two white fixed lights at Pagurawan river by a *white group occulting light every thirty seconds*, thus:—light, *three seconds*; eclipse, *three seconds*; light, *twelve seconds*; eclipse, *twelve seconds*; it will be elevated 49 feet above high water, and visible in clear weather from a distance of 12 miles. The light, which will be of the 4th order, will be exhibited from an iron lattice structure, 42 feet high, painted white, erected in the same position as the existing lights.

Approximate position, lat. $3^{\circ} 25'$ N., long. $99^{\circ} 19'$ E.

Further Notice will be given.

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok bay, No. 2760; Malacca strait, No. 1355; Diamond Point to Pulo Berhala, No. 1353: Also, List of Lights, Part VI, 1906, No. 406; and China Sea Directory, vol. I, 1896, page 87.

PACIFIC OCEAN—NEW GUINEA, NORTH COAST.

St. Mathias island—Amended position of—

No. 161 (second publication).—The following Notice to Mariners (No. 342 of 1906) issued by the British Admiralty is republished:—

Information, dated 2nd April 1906, has been received from the Board of Trade that Mr. F. W. Davies, Master of the S.S. *Oceano*, reports that St. Mathias island is shown on the chart considerably to the southward of its correct position. As this confirms previous information received on the subject, this island has been moved on the charts $11\frac{1}{2}$ miles N. 26° W. from the position it has hitherto occupied, its northernmost point being placed in lat. $1^{\circ} 17' S.$, long. $149^{\circ} 31\frac{1}{2}' E.$

(Variation 5° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Pacific, No. 780; Australia, No. 2759a; North-east coast of New Guinea, No. 2766; Also, Pacific islands, vol. I, 1900, page 369; and Supplement, 1903, page 32.

CHINA SEA—SOUTH NATUNA ISLANDS.

Seraia island—Non-existence of shoal.

No. 162 (second publication).—With reference to Notice to Mariners No. 48, dated 10th February 1900, issued by this office, the British Admiralty has given further notice (No. 343 of 1906) that a careful search was made for the $2\frac{1}{2}$ fathoms shoal reported in 1900, and shown on the charts as situated at a distance of one mile N. 47° W. from the south point of Seraia island, South Natuna islands, but no sign of danger was discovered, the sounding being 20 to 25 fathoms in the locality; it has therefore been expunged from the Admiralty publications.

Approximate position, lat. $2^{\circ} 40' N.$, long. $108^{\circ} 33' E.$

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—China Sea, No 2660a; South Natuna islands, No. 2104; Also, China Sea Directory, vol. II, 1899, page 83; and Supplement, 1901, page 4.

AFRICA, EAST COAST—PEMBA ISLAND.

Chaki Chaki bay—Flagstaff disappeared—Buoys withdrawn.

No. 163 (second publication).—The British Admiralty has given notice (No. 345 of 1906) that the flagstaff on Mesale island, Onaki Chaki bay, has fallen down, and will not be re-erected.

Approximate position, lat. $5^{\circ} 14\frac{1}{2}' S.$, long. $39^{\circ} 36' E.$

Also, that the black can buoys formerly situated at distances $6\frac{1}{2}$ cables N. 28° W. and $9\frac{1}{2}$ cables N. 43° W, respectively from Ras Tundauwa flagstaff have been withdrawn. There are some small buoys for local use only which do not appear on the chart, but all buoys in this port are coloured on a uniform system, the port-hand buoys being black and the starboard-hand buoys red when entering. The buoys are painted frequently, but, owing to the number of sea birds perching on them, often present a white top.

(Variation 7° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Chake point to Pangani, No. 1390; west coast of Pemba, No. 1812; Pemba island, south-east coast, No. 1310; Also, Africa Pilot, part III, 1905, pages 437, 438.

EASTERN ARCHIPELAGO—MALACCA STRAIT—SUMATRA.

Brouwers (Browed) strait, northern entrances—Buoyage of.

No. 151 (third publication).—The British Admiralty has given notice (No. 308 of 1906) that the undermentioned buoys have been established in the northern entrance to Brouwers strait in the following approximate positions on chart No. 795:—

- a. A white conical buoy surmounted by a ball situated in lat. $1^{\circ} 52\frac{1}{2}' 0'' N.$, long. $101^{\circ} 49\frac{1}{2}' E.$
- b. A black can buoy situated in lat. $1^{\circ} 46' N.$, long. $101^{\circ} 53\frac{1}{2}' E.$

RESOLUTION ON THE BUDGET ESTIMATE OF THE HOWRAH BRIDGE FOR THE YEAR 1905-1906.

No. 837 Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 16th May 1906.

RESOLUTION.

READ—

Letter No. 9533, dated 30th March 1906, from the Vice-Chairman of the Commissioners of the Port of Calcutta, forwarding the Budget Estimate of the Howrah Bridge for the year 1906-07.

Receipts.

The receipts for the year 1906-07 have been estimated at Rs. 2,03,594 against Rs. 1,88,594 of the previous year, showing an increase of Rs. 15,000. This is due to an expected increase in the receipts from Railway Traffic.

Expenditure.

2. The expenditure has been estimated at Rs. 1,92,772 against Rs. 1,87,407 of the last year. The increase in expenditure is chiefly under the head of "Maintenance and Repairs."

3. As the net result, there is an estimated surplus of Rs. 10,822 against Rs. 1,185 in the preceding year.

4. The Lieutenant-Governor sanctions the estimate under section 21 of Act IX (B.C.) of 1871.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary.

RESOLUTION ON THE TRIENNIAL REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1903, 1904 AND 1905.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 18th May 1906.

RESOLUTION No 594T.—M.

READ—

The Triennial Report on the Lunatic Asylums in Bengal for the years 1903, 1904 and 1905.

Read also—

The Annual Returns of the Lunatic Asylums in Bengal for 1903 and 1904 and the Resolutions recorded thereon by Government.

This is the second Triennial Report on the Lunatic Asylums in Bengal, and it has been submitted to Government by the prescribed date.

2. The three years which have elapsed since the submission of the last Triennial Report were marked by the conception and progress of the scheme for the establishment at Ranchi of a large Central Asylum. It was originally intended that the proposed Central Asylum should be established at Berhampore, and the construction of new buildings was taken in hand there, but the proposal was abandoned and it was decided, with the previous approval of the Government of India, to make over the asylum buildings at Berhampore to the Jail Department, which was prepared to utilise them as a Central Jail, and to proceed with the construction of the new Central Asylum at Ranchi. Land has already been acquired at Ranchi, and the plans and estimates of the buildings to be erected are now under the consideration of Government. The Central Asylum will be under the management and supervision of an expert alienist as Superintendent, and the Government of India have been asked to depute an officer possessing the necessary qualifications. Meanwhile, pending the construction of the buildings at Ranchi, all the asylums in the Province are as far as possible being amalgamated at Berhampore, where the enlarged buildings afford increased accommodation, and the lunatics at the Dullunda and Cuttack Asylums have already been transferred to that asylum. The buildings at Dullunda have been utilised for the Form Stores of this Government, and those at Cuttack will be made over to the Jail Department for the extension of the Jail. It was also intended that the lunatics from the Patna Asylum should be transferred to Berhampore, but the existing buildings were not sufficient for their accommodation, and in view of the approaching transfer of the Central Asylum to Ranchi it was considered unnecessary to incur additional expenditure in erecting buildings for their accommodation. As the result of the formation of the new Province, the Asylum at Dacca was brought under the control of the Inspector-General of Civil Hospitals, Eastern Bengal and Assam, from the 16th October 1905, and the Report under review therefore deals with the statistics of four asylums only.

In connection with the proposal to locate the new Central Asylum at Ranchi, it has been suggested that a Central Asylum for the reception of the European lunatics of Northern India should also be established there. The Government of India have consulted the other Local Governments concerned on this proposal, and the matter is still under consideration.

3. The Inspector-General again draws attention to the fact that there is an evident tendency for the asylum population to increase, the admissions growing in number year by year, while discharges remain more or less stationary; and he compares this with the experience of British asylums, where it is found that the number of pauper insanes under detention is increasing at an alarming rate. He considers that this is due mainly to two causes, firstly, the greater confidence now felt in these institutions, and secondly, the fact that the public generally are becoming more unwilling to support

incapable relatives. It is improbable, however, that the second cause noticed by the Inspector-General of Civil Hospitals has actually produced much effect upon the figures, as the non-criminal lunatics admitted to asylums in Bengal are in most cases sent up by the Police and are usually destitute and without friends or relatives. In 1904 the number of admissions was 228, the largest number admitted in any year. The drop to 195 in 1905 is chiefly due to the transfer of certain districts to the new Province of Eastern Bengal and Assam.

4. The number of daily average sick in the asylums rose from 36·76 in 1902 to 70·01 in 1905, the daily average for the intervening years being 41·92 and 54·53. The marked increase in 1905 is reported to have been chiefly confined to the Berhampore Asylum, where fevers and phthisis were common; but many of the admissions were apparently due to trivial complaints, and the increase does not demand special attention. The average death-rate in the asylums dealt with in this review during the triennium was 103 per mille against 86 in the previous triennium, but it is satisfactory to find that the death-rate of 116 per mille in 1903 fell to 100 in 1904 and declined still further to 91 in 1905: the chief causes were tuberculosis, dysentery and diarrhoea. As the Inspector-General points out, the mortality rate for the Bengal asylums in 1905 compares favourably with that recorded for the county and borough asylums in England, where the average of the ten years 1895—1904 was 101 per mille. The average death-rate of the Bengal asylums during the 10 years ending in 1903 was only 93 per mille.

5. The percentage of cases admitted into the lunatic asylums in which the causes of insanity were not ascertained is still very high, being 61·47 in 1903, 50·19 in 1904 and 55·25 in 1905, or an average of 55·63 against 59·28 in the last triennium. This subject was discussed by the Lieutenant-Governor in the Resolution on the last Triennial Report, and the hope was expressed that a careful compliance with the standing orders of Government regarding the preparation of the medical history sheets of lunatics committed to asylums would produce better results. This expectation has not been realised, and Colonel Macrae reports that it was found, while inspecting the Patua Asylum last year, that a considerable proportion of the medical history sheets gave very little information regarding the previous history of the lunatics. The successful treatment of lunacy depends to a very great extent upon a thorough and exact knowledge of the history and circumstances of each case, and the Lieutenant-Governor must again insist that due attention should be paid both by the committing Magistrate and the observing medical officer to this important duty.

6. The expenditure on all the asylums averaged Rs. 1,09,742 a year, and the average annual income from paying patients was Rs. 14,191, while the net receipts from manufactures averaged Rs. 3,728. The mean cost for European lunatics was Rs. 376 and for native lunatics Rs. 106. The average cost per lunatic on account of diet fell from Rs. 49-7-5 in 1903 to Rs. 47-10-9 in 1905.

7. The thanks of Government are due to Colonel Macrae for his report, and His Honour accepts with satisfaction his opinion that the asylums were well managed during the three years covered by the Report.

FINAL FORECAST OF THE OILSEED CROPS OF BENGAL, 1905-1906.

The following note is published for general information. .

Chief Secy. to the Govt. of Bengal.

The 19th May 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE OILSEED CROPS OF BENGAL, 1905-1906.

[On an average of the five years ending 1903-1904 the areas under linseed, rape and mustard and *til* in the territory to which this forecast relates have represented some 29·7, 22·4, and 6·2 per cent., respectively, of the total area under these crops in British India.]

Explanatory.—This forecast furnishes final estimates of area and outturn of different kinds of oilseeds, both *bhadvi* and *rabi*, grown in Bengal as now constituted, that is including Sambalpur and excluding the fourteen districts recently transferred to the New Province of Eastern Bengal and Assam. Of the various oilseeds, mustard and rape make up about a third of the total, and linseed makes up almost as much, *ginjelly* or *til* (*bhadvi* and *rabi*) castor, and other oilseeds amounting to the remaining third of the whole. More than half the total quantity of linseed is grown in the Patna Division, while for rape and mustard the most important districts are Purnea, the Sonthal Parganas, Bhagalpur, Darbhanga, and Khulna. *Ginjelly* is chiefly grown in Sambalpur, Midnapore, Jessore, and Angul.

2. *Character of the season.*—The linseed and mustard crops suffered to some extent from want of moisture at the time of sowing, but they suffered still more severely from untimely rain in January and February.

3. *Area sown.*—The total normal area under the different kinds of oilseeds in the Province is estimated as 2,400,600 acres. The area actually sown this year is 2,200,100 acres against 2,243,600 acres sown last year.

4. *Outturn.*—As will appear from the appendix only Balasore, a very unimportant district so far as oilseeds go, reports a normal outturn. Only one other district, viz., Sambalpur, reports an outturn of 90 per cent. Seven districts (including Saran, Muzaffarpur, and Darbhanga) report between 80 and 89 per cent.; eight districts (including Purnea, Monghyr, Champaran, and Gaya) report between 70 and 79 per cent.; six districts (including Bhagalpur)

report between 60 and 69 per cent.; while the remaining ten districts (including the Sonthal Parganas and Nadia) report less, viz., from 34 to 59 per cent.

Since the publication of the preliminary forecast, prospects have improved only in one district, namely Saran; they remained stationary in eight districts and deteriorated in the remaining twenty-four districts.

According to the district estimates of the different kinds of oilseed crops, the outturn of the Province, as a whole, amounts to 69 per cent. of a normal crop against 80 per cent. shown in the preliminary forecast. The outturn last year was 68 per cent.

Taking 6 maunds per acre to be the normal rate of outturn for linseed, rape and mustard, and $4\frac{1}{2}$ maunds per acre for other oilseeds, the gross yield for all oilseed crops for these Provinces during 1905-1906 would amount to 304,700 tons against 301,700 tons estimated to have been produced in the preceding year.

FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1905-1906.

THE following note is published for general information.

R. W. CARLYLE,

Chief Secy. to the Govt. of Bengal.

The 21st May 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1905-1906.

[On an average of five years ending 1903-1904 the area under wheat in the territory to which this forecast relates has represented some 6·2 per cent. of the total area under wheat in British India.

The ratio of irrigated wheat acreage to total wheat acreage (a) in British India, and (b) in the territory now reported on, has in the five years ending 1903-1904, averaged (a) 41·5 per cent. and (b) 2·2 per cent., respectively.]

Preliminary.—The present forecast relates to the Province of Bengal as it stands at present, that is, it excludes the 14 districts recently transferred to the new Province of Eastern Bengal and Assam, while it includes Sambalpur which has been added to this Province from the Central Provinces. But, as already explained in the preliminary forecast, neither Sambalpur nor most of the districts transferred to the new Province grow much wheat, and the wheat area of the Province remains therefore practically unchanged. As a matter of fact, the crop is grown chiefly in Bihar, *i.e.*, the Patna and Bhagalpur Divisions, the principal districts in the order of their importance being Bhagalpur, Gaya, Monghyr, Patna, and Shahabad. Outside Bihar the only other important districts are Murshidabad and Nadia. There is practically no wheat in Orissa.

2. *Character of the season.*—In spite of the want of rain at the sowing season in October, the crop promised fairly well. But in February the weather was quite exceptional, there being heavy and continuous rain accompanied by cloudy weather and in places by hail-storms which caused serious damage. The rainfall in Bihar during that month was over four times the normal. On the whole the season was very disappointing.

Area sown.—The total normal area under wheat in the Province now stands at 1,350,500 acres. The actual area sown this year is estimated at 1,259,000 acres, against 1,324,900 acres sown last year.

Outturn.—Only one district, *viz.*, Purnea, reports a normal crop, while one other, *viz.*, Saran, reports an outturn of 90 per cent. Five districts estimate between 80 to 89 per cent.

Twelve districts, including most of the important wheat-producing districts of Bihar, report between 70 to 79 per cent. Two districts report between 60 to 69, six districts between 50 to 59, while of the remaining two, Ranchi reports only 45 per cent. and Nadia only 34 per cent.

Since the publication of the preliminary forecast at the end of January, the prospects have improved in two districts, have been stationary in five, and have more or less deteriorated in 21 districts.

The estimate for the entire Province according to the revised outturns of the District Officers as now submitted comes to 74 per cent. against 83 per cent. shown in the preliminary forecast. The estimated outturn in 1904-1905 was 76 per cent; or, in other words, the yield is expected to be 400,000 tons this year as compared with 433,200 tons in 1904-1905.

Food-stocks and the Prices of food-grains.—The estimated outturns of the *bhadoi*, winter rice and *rabi* crops during the year were 72, 88, and 75 per cent. of the normal, not much better than in the previous year. The stock of food-grains is reported from most districts as not plentiful and the prices ruled higher than usual almost everywhere in the Province. The stock in hand, however, appears to be sufficient for the requirements of the people.

Imports of wheat into Calcutta.—From the Statistics of

wheat trade quoted in the margin, it will be seen that there was a slight falling off in the imports into Calcutta as compared with the preceding year. The figures represent imports into Calcutta from the districts of Bengal including the transferred districts.

The mean pressure, temperature, &c., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; p, passing showers; t, thunder; <, lightning; d, drizzling rain.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 608T.R.—The 21st May 1906.—Declaration No. 2418L.R., dated the 15th August 1905, published at page 1425, Part I of the *Calcutta Gazette* of the 23rd idem, regarding the acquisition of a plot of land, at the expense of the Calcutta Municipality, for the construction of a Pail Depot at No. 1, Chatoo Babu's Lane, in Ward No. 19, Calcutta, is hereby cancelled.

No. 1982L.R.—The 22nd May 1906.—The undermentioned officers are *ex officio* vested with power to impose penalties under section 11 of the Chota Nagpur Landlord and Tenant Procedure Act, I (B.C.) of 1879, as amended by Act V (B.C.) of 1903:—

- (1) The Subdivisional Officer of Khunti.
- (2) The Covenanted Deputy Collector, Ranchi.

No. 673T.R.—The 24th May 1906.—In supersession of the existing rules for the grant of rewards framed by this Government under the provisions of sub-section (b), section 75 of the Indian Forest Act, and published under Government Notification, dated the 23rd October 1889, at page 960, Part I of the *Calcutta Gazette* of the 3rd November following, as amended by Government Notification, dated the 23rd September 1889, published in the *Calcutta Gazette* of the 25th idem, the following revised rules are published for general information:—

1. All non-gazetted Government officers and persons not in the employ of Government are eligible for rewards under these rules.

2. The Magistrate or the Court imposing the fine is bound to inform the Divisional Forest Officer, or the Subdivisional Forest Officer not being below the rank of an Assistant Conservator of Forests or, in the case of forests under the management of the Civil Department the Deputy Commissioner or Collector of the district, of the levy of the fine, and the whole or any part of the fine, when realized, may be distributed in such proportions as that officer may think fit among the persons instrumental in the detection of the offence, the seizure of the articles, or the capture of the offender. Besides the amount of the fine, the said persons shall also be entitled to share the whole or part of proceeds of the sale of the confiscated articles. The Forest Officer, Deputy Commissioner or Collector aforesaid may also, out of the fine realized, award compensation to any person subjected to annoyance or injury in connection with the proceedings in which the fine was imposed.

3. Rewards granted under these rules shall be disbursed at once, if they are less than Rs. 100. If they are over Rs. 100, that sum only will be disbursed at once, and the rest after the period of appeal has expired, or the appeal has been rejected. In the event of the conviction being reversed on appeal, the amount paid in rewards shall not be recovered from the persons to whom it has been paid, unless it shall appear that they have acted fraudulently.

4. In cases where, under section 67 of the Indian Forest Act, a Forest Officer has accepted a sum of money as compensation for any damage which has been committed, the Conservator of Forests may authorize the payment of a portion of the amount realized as a reward to any person who may have contributed to the discovery of the offender. In the case of forests under the management of the Civil Deputy, the Deputy Commissioner or Collector in charge of the forests is authorized to pay similar rewards out of the money realized by him as compensation for any damage committed.

No. 674T.R.—The 24th May 1906.—Under section 2 of the Indian Forest Act, VII of 1878, the Deputy Commissioner of Palaman is appointed to carry out all the provisions of the said Act, in respect of all "protected" forests lying within his jurisdiction, and is empowered, under section 60 of the Act, to direct the immediate release of any property seized under section 52. He is also empowered under sub-section (1), section 67 of the said Act, to compound "forest offences" committed within the area specified.

No. 682T.R.—The 25th May 1906.—Under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.U.) of 1898, the Lieutenant-Governor is pleased to authorise Babu Nisi Kanta Chatterjee, Sub-Deputy Collector, to discharge the functions of a Revenue Officer in the district of Midnapore under the provisions of that Act, so far as they relate to Revenue Officers.

2. He is also vested with the powers of an Assistant Settlement Officer under Rule 1, Chapter VI of the Rules under the Bengal Tenancy Act.

No. 683T.R.—The 25th May 1906.—Under section 4 of the Survey Act, V (B.C.) of 1875, Babu Nisi Kanta Chatterjee, Sub-Deputy Collector, is appointed to be an Assistant Superintendent of Survey in the district of Midnapore.

NOTIFICATION No. 6874.

State Technical Scholarships for Statutory Natives of Bengal tenable in the United Kingdom or on the Continent of Europe or in America.

THE Government of India have for the last two years awarded, on the recommendation of the Government of Bengal, a few Technical Scholarships of the value of £150 a year tenable by Statutory Natives of Bengal, for two years in the United Kingdom, on the Continent of Europe, or in America. Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering are excluded from the scope of the scheme, and scholarships will, in the first instance, be given preferably to students who wish to go through a course of Mining instruction. A few of these scholarships are likely to be available this year also, but no guarantee to that effect can be given at present. Intending candidates are required to submit their applications to the undersigned on or before the 10th June 1906, with certificates as to (1) their moral character, (2) their educational qualifications, (3) their knowledge of the language of the country in which they may elect to study, and (4) their physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies they propose to take up while in receipt of the scholarships. Candidates for Mining Scholarships should state in their applications whether they have had any actual experience of mining. Government does not guarantee to provide successful candidates with employment on their return to India.

CALCUTTA,
The 18th May 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTICE.

A SCHOLARSHIP, named "Chandra Scholarship," has been founded by Babu Gobinda Chandra Basak, of Dacca. The scholarship was first reserved for the Basak families of the town of Dacca, but it has since been extended to all the Basaks of the whole of Bengal. The first award of the scholarship will be made in 1907. The conditions of the scholarship are—

- (1) That the value of the scholarship will be Rs. 10 a month.
- (2) That it will be tenable for two years in any of the following Engineering College or Schools:—
 - (i) The Civil Engineering College, Sibpur.
 - (ii) Ahsanulla School of Engineering, Dacca.
 - (iii) The Bihar School of Engineering, Patna.
- (3) That the scholarship will be held by one student at a time; and that if a student fails to pass his examination or is found to misbehave within the term of his scholarship, he will forfeit his scholarship and it will be given to another candidate. As a rule the scholarship will be awarded once in every two years.
- (4) That the candidates for the scholarship must have passed the Entrance examination; but in the case of the Dacca School of Engineering a candidate who has passed the Sub-Overseer class examination will be eligible for the scholarship. Preference will be given to candidates who are graduates.
- (5) That the scholarship will not be awarded to a candidate who has obtained a Government scholarship.

H. SHARP,
Director of Public Instruction, E. B. and Assam.

CALCUTTA, the 15th May 1906.

Yearly Examination of Candidates for fourth grade of Accountants.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 2nd and 3rd July 1906, at 10-30 A.M., both days:—

| SUBJECTS. | Full marks. | Minimum pass marks. |
|---|-------------|---------------------|
| Writing (neatness, clearness, and rapidity) | ... 100 | 50 |
| Dictation (spelling, punctuation, etc.) | ... 100 | 50 |
| Arithmetic (the whole) | ... 240 | 160 |
| Mensuration (a) the whole | ... 60 | 30 |
| Book-keeping (b) mercantile | ... 100 | 50 |
| | | <hr/> |
| Total | ... 600 | ... |
| | | <hr/> |

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the *place* and *hour* of examination, with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

lishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or birth) not required if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior, or to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of those candidates should be entered in a statement showing their ages and their addresses and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of application of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on the 25th June 1906, corresponding to 11th Ashar 1313 (B.S.).

The purchasers will be subject to the following conditions of sale:-

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of the estates will be considered as proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if the day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 18th June 1906, corresponding to 4th Ashar of 1313 (H.S.).

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of the estates will be considered as the proprietors of the estates and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 26th May 1906.

W. A. INGLIS,
Secretary, Marine Department.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—PANAY.

Ilo Ilo—Lights established and altered.

No. 176 (first publication).—The British Admiralty has given notice (No. 396 of 1906) that the undermentioned lights at Ilo Ilo have been established and altered:—

- (a) A green fixed light, elevated 10 feet above high water, and visible in clear weather from a distance of 3 miles, has been established on a concrete pillar erected on the jetty head, northern side of the entrance to Ilo Ilo river. It has been placed on the chart at a distance of $5\frac{1}{2}$ cables N. 74° E. from the pilots' watch-tower.
- (b) The red fixed light on the jetty on the southern side of the entrance to Ilo Ilo river has been replaced by a red occulting light every ten seconds thus:—light, seven seconds, eclipse, three seconds; elevated 26 feet above high water, and visible in clear weather from a distance of 7 miles from the bearing of S. 40° W., through west and north, to N. 60° E., but it is obscured by the fort from N. 47° E. to N. 38° E. The light, which is of the 6th order, is shown from an iron mast.

Approximate position, lat. $10^{\circ} 42'$ N., long $122^{\circ} 35\frac{1}{2}'$ E.

(Variation 1° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Molucca passage to Manila, No. 943, Sulu or Mindoro sea, No. 2578; port of Ilo Ilo, No. 2591: Also List of Lights, part VI, 1906, page 103, No. 627; Eastern Archipelago, part I., 1902, page 244.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON.

Manila harbour Entrance—Lights altered.

No. 177 (first publication).—The British Admiralty has given notice (No. 401 of 1906) that the red fixed light, situated near the south-eastern end of the additional breakwater at a distance of $1\frac{7}{10}$ miles S. 22° W. from Manila cathedral, is elevated 24 feet above high water, and visible in clear weather from a distance of 7 miles; it is exhibited from a white concrete pillar.

Also, that the colour of the light, situated at a distance of $1\frac{1}{2}$ miles S. 87° W. from the cathedral, on the north-western end of the same breakwater, south side of entrance to the new harbour, has been altered from white to green; it is elevated 24 feet above high water, and visible from a distance of 2 miles.

Approximate position, cathedral, lat. $14^{\circ} 35\frac{1}{2}'$ N., long. $120^{\circ} 58'$ E.

(Variation Nil in 1906.)

No. 159 (third publication).—The British Admiralty has given notice (No. 337 of 1906) that it is intended to alter Meinderts reef light from white fixed to *white occulting every twenty seconds*, thus:—light, ten seconds; eclipse, ten seconds; the new light being produced by acetylene gas.

Approximate position, lat. $7^{\circ} 40\frac{1}{2}' S.$, long. $114^{\circ} 26' E.$

Further Notice will be given.

This Notice affects the following Admiralty Charts:—*Eastern Archipelago*, No. 941b; *Java island*, No. 1654: Also, *List of Lights, Part VI*, 1906, No. 506; and *Eastern Archipelago, Part II*, 1904, page 140.

EASTERN ARCHIPELAGO—SUMATRA, EAST COAST—MALACCA STRAIT.

Pagurawan river light—Intended alteration in—

No. 160 (third publication).—The British Admiralty has given notice (No. 338 of 1906) that it is intended to replace the two white fixed lights at Pagurawan river by a *white group occulting light every thirty seconds*, thus:—light, three seconds; eclipse, three seconds; light, twelve seconds; eclipse, twelve seconds; it will be elevated 49 feet above high water, and visible in clear weather from a distance of 12 miles. The light, which will be of the 4th order, will be exhibited from an iron lattice structure, 42 feet high, painted white, erected in the same position as the existing lights.

Approximate position, lat. $3^{\circ} 25' N.$, long. $99^{\circ} 19' E.$

Further Notice will be given.

This Notice affects the following Admiralty Charts:—*Acheh head to Tyngkok bay*, No. 2760; *Malacca strait*, No. 1355; *Diamond Point to Pulau Berhala*, No. 1353: Also, *List of Lights, Part VI*, 1906, No. 406; and *China Sea Directory*, vol. I, 1896, page 87.

PACIFIC OCEAN—NEW GUINEA, NORTH COAST.

St. Mathias island—Amended position of—

No. 161 (third publication).—The following Notice to Mariners (No. 342 of 1906) issued by the British Admiralty is republished:—

Information, dated 2nd April 1906, has been received from the Board of Trade that Mr. F. W. Davies, Master of the S.S. *Oceano*, reports that St. Mathias island is shown on the chart considerably to the southward of its correct position. As this confirms previous information received on the subject, this island has been moved on the charts $11\frac{1}{2}$ miles N. $26^{\circ} W.$ from the position it has hitherto occupied, its northernmost point being placed in lat. $1^{\circ} 17' S.$, long. $149^{\circ} 31\frac{1}{2}' E.$

(Variation 5° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—*Pacific*, No. 780; *Australia*, No. 2759a; *North-east coast of New Guinea*, No. 2766: Also, *Pacific islands*, vol. I, 1900, page 369; and *Supplement*, 1903, page 33.

CHINA SEA—SOUTH NATUNA ISLANDS.

Seraia island—Non-existence of shoal.

No. 162 (third publication).—With reference to Notice to Mariners No. 48, dated 10th February 1900, issued by this office, the British Admiralty has given further notice (No. 343 of 1906) that a careful search was made for the $2\frac{1}{2}$ fathoms shoal reported in 1900, and shown

on the charts as situated at a distance of one mile N. 47° W. from the south point of Seraia island, South Natuna islands, but no sign of danger was discovered, the sounding being 20 to 25 fathoms in the locality; it has therefore been expunged from the Admiralty publications.

Approximate position, lat. 2° 40' N., long. 108° 33' E.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—China Sea, No 2600a; South Natuna islands, No. 2104; Also, China Sea Directory, vol. II, 1899, page 83; and Supplement, 1901, page 4.

AFRICA, EAST COAST—PEMBA ISLAND.

Chaki Chaki bay—Flagstaff disappeared—Buoys withdrawn.

No. 163 (third publication).—The British Admiralty has given notice (No. 345 of 1906) that the flagstaff on Mesale island, Onaki Chaki bay, has fallen down, and will not be re-erected.

Approximate position, lat. 5° 14½' S., long. 39° 36' E.

Also, that the black can buoys formerly situated at distances 6½ cables N. 28° W. and 9½ cables N. 43° W. respectively from Ras Tundauwa flagstaff have been withdrawn. There are some small buoys for local use only which do not appear on the chart, but all buoys in this port are coloured on a uniform system, the port-hand buoys being black and the starboard-hand buoys red when entering. The buoys are painted frequently, but, owing to the number of sea birds perching on them, often present a white top.

(Variation 7° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Chale point to Pangani, No. 1390; west coast of Pemba, No. 1812; Pemba island, south-east coast, No. 1310; Also, Africa Pilot, part III, 1905, pages 437, 438.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT FOR THE YEAR 1905.

No. 763J.—D.

JAILS.

Dated Darjeeling, the 22nd May 1906.

RESOLUTION.

READ—

The Report on the Administration of the Jail Department for the year 1905.

Read also—

The Reports for the years 1903 and 1904 and the Resolutions of Government recorded thereon.

The report under review has been submitted by Major W. J. Buchanan, I.M.S., who has been in charge of the Department throughout the year. The statistics of 14 district and 25 subsidiary jails transferred to the new province of Eastern Bengal and Assam have been omitted from the report, while those of the Sambalpur Jail have been included. For the purposes of comparison, however, the Inspector-General has compiled statistics for 1904 relating to the 35 jails and 67 subsidiary jails of the reconstituted province of Bengal.

2. The total prison population of Bengal, which was 14,448 at the beginning of the year, amounted to 14,872 at its end. The daily average population was 14,934 against 14,797 in 1904: the male population which passed through the jails increased, while the number of females decreased. The daily average population of both sexes, however, shows an increase over the previous year.

3. After some years of steady decline in the death-rate calculated on the daily average numbers of all classes of prisoners, the Inspector-General of Prisons had last year the satisfaction of reporting the lowest figure on record. The death-rate has, however, risen from 19·5 in 1904 to 25·3 per mille in the year under review, while the rate calculated on the daily average convict population of all jails has risen from 20·0 to 24·7 per mille. In 1904 the rate exceeded 40 per mille only in the Balasore Jail. It is satisfactory to note that under a new Superintendent, and with new methods, the mortality in that jail has fallen from 79·7 to 22·6 per mille. In the past year the death-rate has exceeded 40 per mille in four jails. In Burdwan it has risen from 9·4 per mille in 1904 to 43·3 per mille in 1905. The increase is attributed in part to the general unhealthiness of the year and to severe floods, which covered the jail garden and rose high within the jail walls. But the principal cause undoubtedly was the persistent overcrowding, in consequence of which a great number of young and healthy prisoners was transferred to other jails, and the remaining population consisted largely of old and feeble men unfit for transfer. In Purnia the mortality was 46·6 per mille. The main barrack is reported to be radically defective, and the Inspector General will, if necessary, submit proposals for the construction of a new one. In Chaibassa the high rate of 44·1 per mille was largely accidental; there were six deaths among a small population. Finally, there is the case of the Midnapore Jail with a mortality among the convict population of 45 per mille. The death-rate of this jail is always considerably above the average for the province. For the three years ending with 1905 it was 27 per mille per annum. Successive Medical Officers have noted the fact that a large proportion of the prisoners admitted are in bad health. In 1905 no less than 38 per cent of the prisoners admitted were classed as in bad or weakly health. The Inspector-General is also of opinion that there are serious defects in the construction of the barracks. His proposal to raise the roofs and provide ridge ventilation has been generally approved by the Local Government, and plans and estimates are awaited.

4. The Inspector-General again calls attention to the general prevalence of tuberculosis throughout the province. During 1905, 210 prisoners suffering from this disease were admitted to hospital and 59 deaths took place. Cases occurred in 28 out of the 35 jails in the province. In the Alipore Jail alone 71 cases were admitted to hospital, and 35 cases in the Midnapore Jail. Last year the Inspector-General reported that, after studying the latest literature on the subject, he was convinced that it was useless to attempt any scheme of isolation for curative purposes, unless it were carried out in a very liberal and very thorough manner. He suggested, however, that a special jail might be set apart for the reception of such cases to safeguard other prisoners from danger of infection. At that time he was unable to specify any jail which could be so set apart. Major Buchanan now suggests that when the Asylum at Berhampore is taken over for use as a second-class Central Jail, it might be possible to use the present jail for the reception of prisoners suffering from tuberculosis. Though Berhampore is not an ideal place for the treatment of such cases, no accommodation is likely to be available elsewhere, and the immunity of other prisoners from infection would at least be secured. If the Inspector-General decides to submit a scheme to the Government, it will receive due consideration.

5. It appears that there was overcrowding in 16 jails and in the under-trial wards of 9 jails. In the case of the latter, however, the difficulty was surmounted by providing a separate convict ward for the accommodation of under-trial prisoners. The excess convict population was dealt with by transfers to other jails and by utilising work-sheds and verandahs as

dormitories. The increased difficulty of providing accommodation owing to the better classification and separation of the prisoners is recognized. It is satisfactory to note that a great deal has been done towards providing segregation wards and enclosures for new convicts.

6. The Lieutenant-Governor notices that the year has been one of progress in the matter of buildings, and that many necessary works have been completed or undertaken. A sum of Rs. 5,31,000 was allotted for the new Presidency Jail, the construction of which is proceeding rapidly. Out of a lump sum of Rs. 1,50,000, Rs. 87,349 were distributed for the building of two new subsidiary jails and other jail works in this province. In addition to these grants, sums amounting to Rs. 1,01,364 were provided for segregation wards at Arrah, Gaya, and Monghyr and for various improvements in other jails.

7. The total profits on manufactures in all jails amounted to Rs. 5,30,163-3, against Rs. 5,57,938-12 in 1904. The total cash profit amounted to Rs. 3,35,506 as against Rs. 4,57,458 in 1904. The net earnings per convict in Central Jails were highest in the Presidency Jail, where they averaged Rs. 132-12 and lowest in Hazaribagh, with Rs. 30-2 per convict. It appears that the decrease in profits is to a considerable extent due to the increase in the price of raw materials. In the Alipore Central Jail, for instance, the profits were Rs. 69,749-6 as against Rs. 1,11,715-3 in 1904, and this is attributed to the fact that the price for manufactured gunny-bags did not advance sufficiently to compensate for the increase in the price of raw materials. This explanation applies equally to the Buxar Central Jail, where the net profits decreased from Rs. 1,12,142 in 1904 to Rs. 89,836 in 1905.

8. The total number of offences committed by convicts was 26,416 against 25,535 in 1904, while the punishments inflicted by Superintendents numbered 26,606 as against 25,742. Three thousand three hundred and twelve major punishments were imposed. The Lieutenant-Governor notices with satisfaction that corporal punishments, which had increased considerably in 1904, have decreased from 182 to 145. Six convicts escaped during the year—3 from inside and 3 from outside the jails. All were recaptured, as were also 4 convicts who had escaped in previous years. In 1904 there were 5 escapes, while the average for the last nine years was 14. The Lieutenant-Governor agrees with the Inspector-General of Prisons that these figures are satisfactory.

9. In the report for 1904 a fuller discussion on the subject of the conduct of casual and habitual offenders was promised. Statistics for the past year have been collected by the Inspector-General. The daily average number of A class prisoners was 6,808 and of B class prisoners, 6,514. Yet it appears that 14,269 offences out of a total of 26,357 jail offences, or more than 54 per cent., were committed by B class prisoners. The figures also show that a relatively greater proportion of the more serious offences is committed by habitual offenders. Twelve thousand two hundred and eighty-eight, or 52·88 per cent. of the total number of minor punishments, and 2,110, or 63 per cent. of the major punishments, were inflicted on B class prisoners. Of the 145 corporal punishments inflicted, 73 per cent. were awarded to habitual offenders. The Lieutenant-Governor agrees that these figures emphasize the recognized necessity of separating the two classes of offenders, and is pleased to find that such separation is now possible in most prisons.

10. One thousand two hundred and eighty punishments were inflicted on warders during the year. Eighty-two warders resigned and three deserted. The Inspector-General remarks that considerable discontent prevails among the warders owing to the increase of pay granted to the police and to the illiberal nature of the sick leave rules. The report which he promises on the question of improving their pay and prospects is awaited by the Government.

11. The average period of detention of under-trial prisoners was 17·5 days in jails and 14·7 days in subsidiary jails. These figures differ little from the figures for 1904. Among the jails the average period was highest in the Purnea Jail, viz. 27·11 days. Hooghly and Arrah come next with 27·05 and 23·15 days respectively. The lowest figure is reported from the Suri Jail, where the average period was only 9·8 days. In the Madhipura subsidiary jail in the district of Bhagalpur the average period of detention was 20·27 days.

12. The Superintendents of the subsidiary jails at Dinapore and Patna City will be asked to explain why they failed to pay the prescribed number of visits.

13. The names of the officers specially commended by the Inspector-General have been noted. The Lieutenant-Governor desires to congratulate Major Buchanan upon his able and successful administration of the Department during the past year and upon the good results which he has secured.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons for information and guidance.

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

| ESTIMATED SURPLUS | | | | ... | 15,00,000 |
| | | | | | 1,48,067 |

5. In each of the past four years reductions have been made in port charges on vessels and goods which in round numbers amount in the aggregate to about Rs. 9 lakhs per annum. This year the Commissioners do not propose any reduction, as although the revenue is expanding and there is an estimated surplus of Rs. 1,48,000, this is but a narrow margin, having regard to the fluctuations of trade, where the operations are so large. Besides, large additions are being made to the Capital debt on account of new works, and although they are nearly all of a remunerative character, it will take some time before they come into use.

6. Excluding the provision made for interest and sinking fund charges, the estimated expenditure aggregates to Rs. 59,21,403 as compared with Rs. 54,51,361 provided in the estimate of the last year. An abstract comparing the estimates of the two years is given below :—

7. 'There is an increase of expenditure' under all heads which is fairly to be attributed to the expansion of the work of the Trust.

8. In pursuance of the powers vested in him by section 71 of the Calcutta Port Act, 1890, the Lieutenant-Governor approves of the estimate of the income and expenditure of the Commissioners for the year 1906-1907.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA,
FOR THE YEAR 1905-1906.

No. 707T.—M., dated Darjeeling, the 24th May 1906.

From—H. J. McIntosh, Esq., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Secretary to the Government of India, Revenue and Agriculture Dept.

I AM directed to submit, for the information of the Government of India, a copy of the Annual Report of the Royal Botanic Garden, Calcutta, for the year 1905-06.

2. The Lieutenant-Governor considers that Captain Gage, I.M.S., and his subordinates deserve credit for the good work which has been done during the year, and an expression of his acknowledgments has been conveyed to them.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA,
FOR THE YEAR 1905-06.

DURING the year weather conditions were normal, except for the unusual rainfall in February 1906, which, however, did not appreciably affect the garden. The principal outdoor works were the continued improvement of the nursery; the re-making of the Scott avenue leading from the riverside avenue to the Banyan avenue; the relaying of the paths around the Herbarium and Cinchona office; the erection of a stone parapet to the bridge on the Jacquemont Path, to replace the old tile parapet which had fallen into a ruinous condition, and the re-alignment of the path between the bridge and the Banyan avenue; the renovation by the Public Works Department of the two shelter-pavilions, and the complete renewal of the roof of the smaller one; the improvement of the Howrah gate entrance to the garden, and the re-planting of the large palm house. A minor improvement is the erection of a notice-board at each entrance to the garden, which shows by means of a simple arrangement for changing the figures, the hour of closing of the garden on any given day.

2. *Economic work.*—‘Sunn’ hemp (*Crotalaria juncea*)—seed of which was obtained from all parts of India where it is grown—was again cultivated in small plots. It was thought that by sowing fairly late towards the end of October, better results than those of last year might be obtained. As it turned out the result was the reverse of what was expected. Almost all the plants began to flower when little more than a foot high, and they obstinately declined to grow much higher. On two occasions every plot was flattened out by heavy rain, which did not tend to improve matters. As far as yield of fibre is concerned, no results which could be relied upon could be obtained from plants which behaved in such a manner. As the cultivation of ‘Sunn’ hemp is likely to prove of very considerable importance to India, it is proposed to continue plot-experiments until some definite results are obtained, or until the Agricultural Department can take up the experimental cultivation on a larger and more satisfactory scale than is possible on the very limited amount of ground available in the garden. Apart from the experimental side of economic work a considerable amount of useful work has been accomplished during the year in the distribution of economic plants by seed or otherwise throughout India and in their introduction into other countries. The space allotted to this report permits mention of only a few illustrative instances. In India there has been a revival of interest in rubber, and not a few applicants have been furnished with information and seed or plants of *Ficus elastica* and *Munihot coccinea*. The latter, which yields Ceara rubber, appears to thrive in Bengal and Assam, but it is doubtful whether it yields rubber equal to that obtained from the same species cultivated in Southern India and Ceylon. Camphor-seed has been supplied to certain parties. Sisal hemp plants have been distributed to certain jails, and lime-seeds as usual to many of the jails.

in Bengal. Seeds of timber and other useful trees have been largely distributed over India and to other tropical or semi-tropical countries. Outside of India seeds of the species of *Aeschynomene* which furnish 'Sola' pith were supplied to the Jardin Colonial of Paris; collections of economic bamboos and of seeds of useful Indian trees were distributed to the Hon'ble Mr Joseph Baynes, C M G., and Mr. Charles Hitchens of Natal,—who had both personally visited the garden last year—for attempted acclimatization in South Africa; deodar seed was supplied to the Transvaal Landowners' Association, and jute seed to the Government of German New Guinea; seed of 'Sunn' hemp was distributed to the United States Agricultural Department in the Philippines, and Indigo seed to the Dutch Agricultural Department in Java, and to a correspondent in the Ile de la Reunion; tea-seed was sent to the Agricultural Association of the Island of Sicily. The economic additions to the garden include Caravonica cotton; a collection of grasses from the Transvaal Agricultural Department; a similar collection from the United States Department of Agriculture; and a collection of economic plant seeds from the Estacion Agronomica of Havana.

3. *Herbarium*.—Since July 1905, owing to unavoidable circumstances, there has been no Curator of the Herbarium. Consequently work has suffered to a considerable extent, as the multifarious duties of the Officiating Superintendent during the past year have allowed him exceedingly little time for botanical work. However a decided improvement has been effected in the completion of the scheme of renewal of the cabinets on the ground floor of the building, referred to in last year's report, and the facilities for consulting the collection are now vastly superior to what they were two years ago. During a considerable part of the year the Herbarium was utilised by, and all help accorded to, Mr. A. Meebold, a German botanist, in studying his large collection of specimens gathered on behalf of the University of Breslau during a tour through India and Burma. The same gentleman made a tour on behalf of the Botanical Survey up the Bramahputra valley and across the central mountain mass of Assam *via* Kohima and Manipur, thence down the Surma valley to Silchar. In Burma as there was no European botanist available, a native collector was sent to the district of Pakokku, in order to extend the survey which had been done in the district of Minbu just to the south. In Bengal collections of specimens of special orders continued to be made by the men working under the Revd. Father Cardon, S.J., in Chota Nagpur. A collector was sent to Pusa by permission of the Director of the Agricultural Research Institute there, to collect the interesting flora of the still wild parts of the estate. The Officiating Superintendent collected on the Government Cinchona Plantation and the surrounding district, with the view of beginning the formation of two representative herbaria of the flora of the Darjeeling district, one to be placed in the Llyod Botanic Garden, Darjeeling, where the present collection is by no means satisfactory, the other in the Superintendent's house on the Cinchona Plantation where it would be available for consultation by official or other visitors to the plantation. The number of specimens received in the Herbarium from India and from other countries amounted to 6,882. The specimens distributed to other Herbaria were about 7,000. A beginning has been made with the formation of a card-index of orders, genera, and species in the Herbarium numbered according to Bentham and Hooker's *Genera Plantarum* and Hooker's *Flora of British India* to facilitate direct reference to the Herbarium shelves.

4. *Laboratory and Museum*.—With the scientific staff of the Garden for the greater part of the year reduced to one officer, whose time was very largely taken up with purely administrative work, there naturally could be but little done in either Laboratory or Museum. However, a considerable number of specimens for the Museum have been collected for mounting when time is available. A commencement also has been made with a photographic survey of the Garden. It is proposed to systematically photograph the whole Garden, and specially interesting individual trees, and to register the actual area taken in by, and the point of view of, every photograph on skeleton maps of the Garden, divided up into lettered and numbered squares.

5. *Library*.—Owing to the Curatorship of the Herbarium being vacant for the greater part of the year, not so much progress as would be desirable

has been made in Library work. It has not stood still however. The usual number of accessions was registered. The Index of new species of plants, which is published monthly by the Herbar Boissier in Switzerland, in the form of small oblong slips has been converted into an excellent card-catalogue by pasting the slips as published on to the regular size of cards and arranging the latter in specially made cabinets.

6. *Publications*.—During the year there were issued:—Annals of the Royal Botanical Garden, Calcutta, Vol. X, Part II, *The Aconites of India*, a Monograph with 27 plates by Dr. O. Stapf, of the Kew Herbarium.

Records of the Botanical Survey of India, Vol. IV, No. 2, *An Epitome of the British Indian Species of Impatiens*, Part II, by Sir J. D. Hooker.

Non-official publications include:—*Materials for the Flora of the Malayan Peninsula*, Parts XVI, XVII, XVIII, by Sir George King and Mr. J. S. Gamble, C.I.E. in the Journal of the Asiatic Society of Bengal; *Munsonia*, a new Tribe of the Natural Order Sterculiaceæ, by Lieut.-Colonel Prain, contributed to the Journal of the Linnean Society. The Officiating Superintendent has contributed several short papers descriptive of new species to the Journal of the Asiatic Society and the Indian Forester.

7. *Interchange of seeds and plants*.—During the year 2,181 packets of seeds were distributed and 1,163 received, while the number of plants sent out reached 53,281 and the number received amounted to 2,292. The seeds and plants of economic importance have already been referred to as far as space permits under "Economic work." The number of plants sent out is the largest for many years, and includes over 17,000 for Dalhousie Square and the Esplanade in Calcutta.

8. *Lloyd Botanic Garden*.—The condition of this Garden was satisfactory throughout the year. The Curator and the Lepcha collectors visited the high levels to collect Sikkim plant seeds for distribution to the botanical and horticultural institutions of Europe and America.

9. *Visitors*.—During the year the Garden has been visited at various times by the officers of the Imperial Agricultural Department and of the Agricultural Department of the Bombay Government; the Reporter on Economic Products to the Government of India; the Economic Botanist to the Government of Madras and others, who also freely consulted the Herbarium and Library. Towards the end of the year the Garden had a distinguished visitor in the person of Dr. A. Engler, the Director of the Imperial Botanic Garden of Berlin who spent a few days in the Garden and also on the Cinchona Plantation, along with the Officiating Superintendent.

11. *Financial*.—The allotments for contingencies for the Royal Botanic Garden were fully spent. Under "Establishment" charges there was a saving of Rs. 5,380-9-7 for the Royal Botanic Garden, and under "Travelling Allowance" a saving of Rs. 334-15. The allotments for the Lloyd Botanic Garden were spent in full, except for the sum of Rs. 2-2 saved on travelling allowance. The revenues for the Royal Botanic Garden of Rs. 846-7 and for the Lloyd Botanic Garden of Rs. 233 6-6 were paid into the Calcutta and Darjeeling treasuries respectively.

A. T. GAGE, M.B., CAPTAIN, I.M.S.,
Acting Superintendent, Royal Botanic Garden, Calcutta.

Government of Bengal.**PUBLIC WORKS DEPARTMENT.**

NOTIFICATION.

No. 116.

Dated Calcutta, the 24th May 1906.

THE following rule issued by the Government of India in the Public Works Department, is republished for information:—

Simla, the 9th May 1906.

Admission of Natives of India to the Public Works Department, from the United Kingdom, after the closing of the Royal Indian Engineering College at Coopers Hill.

AFTER the Royal Indian Engineering College at Coopers Hill ceases to supply Engineers for the Public Works Department, and recourse is had solely to the open market, Natives of India will be eligible, under the regulations issued from year to year by the Secretary of State for India in Council, for appointments to that Department, provided that the total number of Natives of India recruited in the United Kingdom under the regulations shall not at any time exceed 10 per cent. of the total number of Engineers thus recruited.

The appointments will be confined to men of high qualifications who satisfy all the tests which are usually applied to those who are preparing for the Engineering profession.

The foregoing rule will take effect for the first time in 1908.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph.

The month of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

t, thunder; <, lightning; p, passing showers.

NOTIFICATION No. 6374.

State Technical Scholarships for Statutory Natives of Bengal tenable in the United Kingdom, on the Continent of Europe or in America.

THE Government of India have for the last two years awarded, on the recommendation of the Government of Bengal, a few Technical Scholarships of the value of £150 a year tenable by Statutory Natives of Bengal, for two years in the United Kingdom, on the Continent of Europe, or in America. Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering are excluded from the scope of the scheme, and scholarships will, in the first instance, be given preferably to students who wish to go through a course of Mining instruction. A few of these scholarships are likely to be available this year also, but no guarantee to that effect can be given at present. Intending candidates are required to submit their applications to the undersigned on or before the 10th June 1906, with certificates as to (1) their moral character, (2) their educational qualifications, (3) their knowledge of the language of the country in which they may elect to study, and (4) their physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies they propose to take up while in receipt of the scholarships. Candidates for Mining Scholarships should state in their applications whether they have had any actual experience of mining. Government does not guarantee to provide successful candidates with employment on their return to India.

CALCUTTA,

A. EARLE,

The 18th May 1906.

Director of Public Instruction, Bengal.

NOTICE.

A SCHOLARSHIP, named "Chandra Scholarship," has been founded by Babu Gobinda Chandra Basak, of Dacca. The scholarship was first reserved for the Basak families of the town of Dacca, but it has since been extended to all the Basaks of the whole of Bengal. The first award of the scholarship will be made in 1907. The conditions of the scholarship are—

- (1) That the value of the scholarship will be Rs. 10 a month.
- (2) That it will be tenable for two years in any of the following Engineering College or Schools:—
 - (i) The Civil Engineering College, Sibpur.
 - (ii) Alsanulla School of Engineering, Dacca.
 - (iii) The Bihar School of Engineering, Patna.
- (3) That the scholarship will be held by one student at a time; and that if a student fails to pass his examination or is found to misbehave within the term of his scholarship, he will forfeit his scholarship and it will be given to another candidate. As a rule the scholarship will be awarded once in every two years.
- (4) That the candidates for the scholarship must have passed the Entrance examination; but in the case of the Dacca School of Engineering a candidate who has passed the Sub-Overseer class examination will be eligible for the scholarship. Preference will be given to candidates who are graduates.
- (5) That the scholarship will not be awarded to a candidate who has obtained a Government scholarship.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 18th June 1906, corresponding with 4th Ashar 1313 H.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary rights of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan will be put up to sale at the Burdwan Collectorate on the 27th June 1906, corresponding to 14th Asar 1313 (B.S.).

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of the estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from the 1st April 1906 as revenue free, or subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 16th day after the sale, reckoning the day of sale as one, or if that day be a closed holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estates will be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

THE INDIAN LAW REPORTS

Published in *FOUR SERIES*, viz.
CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Government of India, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—
the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JUNE 6, 1906.

NOTICES TO MARINERS.

The following Notices are published for general information.

Calcutta, the 1st June 1906.

W. A. INGLIS,
Secretary, Marine Department.

AUSTRALIA—VICTORIA.

Port Phillip, west channel—Submarine mining ground.

No. 190 (first publication).—The British Admiralty has given notice (No. 419 of 1906) that a submarine mining practice ground has been established on the eastern side of Swan island in the entrance to Port Phillip. It is bounded by the undermentioned imaginary lines:—

- (a) On the south by a line drawn N. 55° W. from Swanspit buoy No. 3 to Swan beacon.
- (b) On the east by a line drawn N. 4° E. from Swanspit buoy No. 3 to a small black buoy moored at a distance 5 cables N. 78° E. from the north-eastern extremity of Swan island.
- (c) On the north by a line drawn approximately N. 87° W. from the black buoy mentioned above to the outer pile marking the channel to Swan island jetty. The position of this pile is not given, but it has been assumed to be on the southern side of the channel entrance.
- (d) On the west by a line drawn south from the above-mentioned pile to the coast, and from that point the west coast of Swan island as far as Swan beacon.

Vessels are prohibited from entering this area, the limits of which have been inserted in the charts.

Approximate position, Swan beacon, lat. 38° 15½' S., long. 144° 41½' E.

(Variation 8° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Port Phillip entrance, No. 2747; Port Phillip, west channel, No. 303; Also Australia Directory, vol. I, 1897; page 435; and Supplement, 1900, page 17.

PERSIAN GULF—BANDAR ABBAS.

Particulars of shoal in approach.

No. 191 (first publication).—With reference to Notice to Mariners No. 477, dated 9th December 1905, issued by this office, the British Admiralty has given further notice (No. 423 of 1906) that an examination of the shoal reported by the Master of the S.S.

Euphrates. in the approach to Bandar Abbas, shows it to have a depth of 2 fathoms over it situated in a position from which the north-western extremity of Hormuz island bears N. 25° E., distant about 3½ miles, and the south-eastern extremity of the same island N. 83° E.

Approximate position, lat. 27° 1½' N., long. 56° 24½' E.

This patch, which has depths of 5 fathoms at distances of half a cable on its east, west and south sides, appeared to form part of a narrow ridge, composed of coral and sand, which connects it with the shoal water extending south-westward from Hormuz island.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Persian Gulf entrance, No. 753; Persian Gulf, with plan of Kishm, No. 2837a: Also Persian Gulf Pilot, 1898, page 206; and Supplement, 1905, page 22.

CHINA, EAST COAST—YUNG RIVER.

Bank in entrance extending.

No. 192 (first publication).—The British Admiralty has given notice (No. 428 of 1906) that the local pilots report that the outer limit of the bank adjoining the coast between Sei Yuen fort and Wang Yuen fort, Yung river entrance, is extending to the northward, the depth on it being about 8 feet; the channel to the southward of Sesostris rock is consequently not now used.

Approximate position, Wang Yuen, fort, lat. 29° 58½' N, long. 121° 44½' E.

This Notice affects the following Admiralty Chart:—Yung river, No. 1592: Also China Sea Directory, vol. III, 1904, pages 383, 385.

PACIFIC OCEAN, SOUTH—NEW HEBRIDES ISLANDS.

Discoloured water reported to the south-eastward.

No. 193 (first publication).—The British Admiralty has given notice (No. 432 of 1906) that Mr. Musson, the Master of the S.S. *Henley*, reports that on January 24th his vessel, being in approximately lat. 19° 3' S., long. 171° 41½' E., passed at a distance of 1½ miles discoloured water having the appearance in some places of coral five or seven fathoms below the surface, and in others sandy shoals just under water. A cast of the lead gave no bottom at 100 fathoms in the ship's position, but this apparent danger was not further examined. Its existence must therefore be considered doubtful, but "discoloured water reported" has been placed on the chart.

This Notice affects the following Admiralty Charts:—Pacific, No. 780; New Hebrides islands, &c., No. 3033: Also Pacific Islands, vol. II, 1900, page 399; and Supplement, 1903, page 20.

JAPAN—OKINAWA (LIU KIU ISLANDS)—SHIMA JIRI.

Heber reef—Non-existence of, reported.

No. 194 (first publication).—The British Admiralty has given notice (No. 433 of 1906) that during a recent search for Heber reef, south-westward of Shima jiri, depths of from 41 to 45 fathoms were obtained over its supposed position. As native fishermen have never heard of its existence, it has been expunged from the charts.

Approximate position on chart No. 2416, lat. 26° 0½' N., long. 127° 34' E.

This Notice affects the following Admiralty Charts:—China Sea, No. 1263; Amoy to Nagasaki, No. 2412; Liu Kiu islands, No. 2416: Also Sailing Directions for Japan, &c., 1904, page 282.

CHINA SEA—SOUTHERN PORTION.

St. Esprit and Tambelan islands—Particulars of shoals in the vicinity.

No. 195 (first publication).—The British Admiralty has given notice (No. 434 of 1906) respecting certain reported shoals in the vicinity of St. Esprit and Tambelan islands as follows:—

St. Esprit group—

- (1) A shoal, with a depth of 8 feet over it, exists in approximately lat. 0° 37' 20" N., long. 107° 3' 20" E. This reef is about 5 cables long in a northerly direction and one cable broad.

- (2) A bank, with a depth of 8 fathoms over it, exists to the south-eastward of S. E island in approximately lat. $0^{\circ} 30' 0''$ N., long. $107^{\circ} 10' 55''$ E. This bank, which is about half a cable in extent, has depths of 20 fathoms around it.
- (3) The position of Ebeling reef was found to be 5 miles S. 9° W. from the position as shown on the chart; it is a coral shoal one cable in extent, with a least depth of 12 feet over it, and is situated in approximately lat. $0^{\circ} 27' 45''$ N., long. $107^{\circ} 25' 20''$ E. There are depths of more than 25 fathoms around it.

With reference to Notice to Mariners No. 591 of 1897 this office No. 217, dated 5th November 1897:—

- (4) The position of Alida shoal was found to be $4\frac{1}{2}$ miles N. 35° W. from its position as shown on the chart; it is a coral shoal about one cable in extent, with a least depth of 12 feet over it, and is situated in approximately lat. $0^{\circ} 58' 35''$ N., long. $107^{\circ} 51' 35''$ E.
- (5) The shoal marked E.D. on the chart in approximately lat. $0^{\circ} 29' 0''$ N., long. $106^{\circ} 58' 0''$ E could not be found, and, as it has been previously searched for without success, it has been erased from the chart.

(Variation 1° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—*Eastern Archipelago*, No. 941a; *China Sea*, No. 2660a; *Indian Ocean*, No. 748b; Also *China Sea Directory*, vol. II, 1899, pages 47, 48, 49.

NEW ZEALAND,—NORTH ISLAND, EAST COAST.

Auckland harbour—Wharf under construction limits.

No. 196 (first publication).—The British Admiralty has given notice (No. 438 of 1906) that a new railway wharf is under construction in Auckland harbour, and that a *white fixed* light will be exhibited at each of the outer corners of the new wharf as the work progresses. Also, that the *two red fixed* lights formerly shown at the eastern end of the existing wharf have been moved about 250 feet to the westward.

Approximate position, lat. $36^{\circ} 50\frac{1}{2}'$ S., long. $174^{\circ} 46\frac{1}{2}'$ E.

This Notice affects the following Admiralty Chart:—*Auckland harbour*, No. 1970; Also *List of Lights*, Part VI, 1906, No. 1585; *New Zealand Pilot*, 1901, page 54; and *Supplement*, 1903, page 4.

CHINA, NORTH—MANCHURIA, HWANG HAI.

Yalu Kiang—Non-existence of shoals in approach.

No. 197 (first publication).—The British Admiralty has given notice (No. 440 of 1906) that a recent survey shows that the undermentioned shoals shown on the charts in the following positions in the approach to the Yalu Kiang do not exist:—

- (a) A shoal marked P.D. in approximately lat. $39^{\circ} 23\frac{1}{2}'$ N., long. $124^{\circ} 8'$ E.
- (c) A shoal of 3 fathoms in approximately lat. $39^{\circ} 39\frac{1}{2}'$ N., long. $123^{\circ} 57'$ E.
- (c) A shoal, with depths over it of $2\frac{1}{2}$ to 3 fathoms in approximately lat. $39^{\circ} 36\frac{1}{2}'$ N., long. $123^{\circ} 33\frac{1}{2}'$ E.

The above shoals have therefore been erased from the chart.

This Notice affects the following Admiralty Charts:—*Japan, &c.*, No. 2347; *gulfs of Pechili and Liau tung*, No. 1256; Also *China Sea Directory*, vol. III, 1904, page 577.

CHINA SEA—GULF OF SIAM.

Bangkok river entrance—Beacon lights replaced by hulks and boats.

No. 198 (first publication).—With reference to Notice to Mariners No. 266, dated 15th July 1905, issued by this office, the British Admiralty has given further notice (No. 441 of 1906) that the Inner and Outer beacons, at the entrance to the Bangkok river, situated respectively at distances of $2\frac{1}{2}$ miles N. 37° E. and $1\frac{1}{2}$ miles S. 32° E. from the Bar light, having disappeared, a *green fixed* light shown from a hulk will in future mark the position of the Inner beacon, and a *red fixed* light from the mast of a white buoy-boat the position of the Outer beacon. The foregoing lights are elevated about 20 feet above the sea, and visible from a distance of about 4 miles.

Approximate position, Outer beacon, lat. $13^{\circ} 27\frac{1}{2}'$ N., long. $100^{\circ} 34\frac{1}{2}'$ E.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Koh Ta Kut to cape Liant, No. 2726; Menam Chau Fya, No. 939: Also List of Lights, Part VI, 1906, Nos. 694, 695, China Sea Directory, vol. II, 1899, page 368; and Supplement, 1901, page 14.

CHINA SEA—TAIWAN (FORMOSA)—WEST COAST.

Nan wan (Kwa liang bay)—Shoal reported.

No. 199 (first publication).—The British Admiralty has given notice (No. 442 of 1906) that a shoal named Taamusaachotau, with a depth of about $1\frac{1}{2}$ fathoms over it, is reported to exist in Nan wan or Kwa liang bay, in approximately lat. $21^{\circ} 56' 16''$ N., long. $120^{\circ} 47' 20''$ E. This shoal is steep-to, having depths of 5 to 10 fathoms close around it.

This Notice affects the following Admiralty Charts:—Luzon island, No. 2454; Formosa island and strait, No. 1968; Also China Sea Directory, vol. III, 1904, page 238.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—PANAY.

Ilo Ilo—Lights established and altered.

No. 176 (second publication).—The British Admiralty has given notice (No. 396 of 1906) that the undermentioned lights at Ilo Ilo have been established and altered:—

(a) A green fixed light, elevated 10 feet above high water, and visible in clear weather from a distance of 3 miles, has been established on a concrete pillar erected on the jetty head, northern side of the entrance to Ilo Ilo river.

It has been placed on the chart at a distance of $5\frac{1}{2}$ cables N. 74° E. from the pilots' watch-tower.

(b) The red fixed light on the jetty on the southern side of the entrance to Ilo Ilo river has been replaced by a red occulting light every ten seconds thus:—light, seven seconds, eclipse, three seconds; elevated 26 feet above high water, and visible in clear weather from a distance of 7 miles from the bearing of S. 40° W., through west and north, to N. 60° E., but it is obscured by the fort from N. 47° E. to N. 38° E. The light, which is of the 6th order, is shown from an iron mast.

Approximate position, lat. $10^{\circ} 42'$ N., long. $122^{\circ} 35\frac{1}{2}'$ E.

(Variation 1° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Molucca passage to Manila, No. 943; Sulu or Mindoro sea, No. 2578; port of Ilo Ilo, No. 2391: Also List of Lights, part VI, 1906, page 103, No. 627; Eastern Archipelago, part I., 1902, page 244.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON.

Manila harbour Entrance—Lights altered.

No. 177 (second publication).—The British Admiralty has given notice (No. 401 of 1906) that the red fixed light, situated near the south-eastern end of the additional breakwater at a distance of $1\frac{7}{10}$ miles S. 22° W. from Manila cathedral, is elevated 24 feet above high water, and visible in clear weather from a distance of 7 miles; it is exhibited from a white concrete pillar.

Also, that the colour of the light, situated at a distance of $1\frac{1}{2}$ miles S. 37° W. from the cathedral, on the north-western end of the same breakwater, south side of entrance to the new harbour, has been altered from white to green; it is elevated 24 feet above high water, and visible from a distance of 2 miles.

Approximate position, cathedral, lat. $14^{\circ} 35\frac{1}{2}'$ N., long. $120^{\circ} 58'$ E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Manila bay, No. 976; Manila and Kavite anchorages, No. 3487: Also List of Lights, part VI, 1906, No. 676a (Remarks); China Sea, vol. II, 1899, page 310; Supplement, 1901, page 9; and Eastern Archipelago, part I., 1902, pages 64, 65.

CHINA SEA—COCHIN CHINA.

Tourane bay—Leading lights discontinued.

No. 178 (second publication).—With reference to Notice to Mariners No. 153, dated 31st May 1902, issued by this office, the British Admiralty has given further notice (No. 410 of 1906) that, on 1st May 1906, the white and red fixed leading lights exhibited on the western side of the Tourane river, and leading to the western anchorage, would be discontinued, but that the beacons from which they are exhibited would be maintained in position.

Approximate position, lat. $16^{\circ} 4' N.$, long. $108^{\circ} 11' E.$

This Notice affects the following Admiralty Charts:—Pan Rang bay to Tong king gulf, with plan of Tourane bay, No. 1342; Also, List of Lights, part VI, 1906, Nos. 733, 734; and China Sea Directory, vol. II, 1899, page 420.

CHINA—YANG TSE KIANG.

South channel—Buoy disappeared.

No. 179 (second publication).—The British Admiralty has given notice (No. 411 of 1906) that the conical buoy, painted in red and black vertical stripes marking the south-eastern end of the Middle ground, in the South channel, Yang tse entrance, having sunk, it probably would not be replaced; it has therefore been erased from the charts.

Approximate position, lat. $31^{\circ} 13' N.$, long. $121^{\circ} 52\frac{1}{2}' E.$

This Notice affects the following Admiralty Charts:—Kueshan islands to Yang tse Kiang No. 1199; approaches to the Yang tse Kiang, No. 1602; Also, China Sea Directory, vol. III, 1904, page 408.

CHINA—YANG TSE KIANG.

Chin Kiang fu—Non-existence of shoal.

No. 180 (second publication).—The British Admiralty has given notice (No. 412 of 1906) that Chin Kiang shoal, shown on the chart at a distance of $1\frac{1}{2}$ cables N. $12^{\circ} E.$ from Chin Kiang fu Custom house flagstaff, has disappeared, there now being a depth of 97 feet over the position.

A recent survey by the Chinese Government confirms the above information, this shoal has therefore been erased from the charts.

Approximate position, lat. $32^{\circ} 13' N.$, long. $119^{\circ} 26\frac{1}{2}' E.$

Variation 2° Westerly in 1906.

This Notice affects the following Admiralty Charts:—Shanghai to Nanking, No. 2809; Chin Kiang fu to Silver island, No. 1288; Also, China Sea Directory, vol. III, 1904, page 437.

JAPAN—HONSHU, SOUTH COAST.

Shimoda harbour—Shoals.

No. 181 (second publication).—The British Admiralty has given notice (No. 413 of 1906) of the existence and non-existence of the undermentioned shoals in Shimoda harbour:—

- (a) A rock, with a depth of $1\frac{1}{2}$ fathoms over it, is situated in a position from which Inubashiri jima summit bears S. $24^{\circ} W.$, distant $1\frac{1}{10}$ cables, and Monzo yama Δ N. $33^{\circ} W.$

Approximate position, lat. $34^{\circ} 40\frac{1}{2}' N.$, long. $138^{\circ} 57\frac{1}{2}' E.$

- (b) The rock awash shown on the chart at a distance of seven-tenths of a cable N. $60^{\circ} E.$ from Noroshi zaki does not exist, depths of $6\frac{1}{2}$ and 7 fathoms having been obtained in the position and its vicinity. This rock has consequently been erased from the charts.

- (c) The depth on the shoal Onagare is $1\frac{1}{2}$ fathoms and not $2\frac{1}{2}$ fathoms as shown on the chart.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Omai saki to Tsurugi saki, No 953; approaches to Shimoda harbour, No. 2655; Also, Sailing Directions for Japan, &c. 1904, page 358.

JAPAN—KŪSHIU, SOUTH COAST.

Kagoshima harbour—Buoys established.

No. 182 (second publication).—The British Admiralty has given notice (No. 414 of 1906) that two black conical buoys, each surmounted by a cylindrical topmark, have been moored, in a depth of $3\frac{1}{2}$ fathoms at low water, on the outer edge of the shoal extending northward from Kotsuki gawa, Kogoshima harbour, the northern buoy being situated in a position from which Shiro yama bears N. 59° W., distant $9\frac{1}{2}$ cables, and the extremity of the southern point of Kotsuki gawa entrance S. 10° W., and the southern buoy with Shiro yama bearing N. 48° W., distant 14 cables, and the southern point of Kotsuki gawa S. 30° W.

Approximate position, Shiro yama, lat. $31^{\circ} 36'$ N., long. $130^{\circ} 32\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Chart:—Kagoshima kairan, No. 372: Also, Sailing Directions for Japan, &c., 1904, page 520.

PACIFIC OCEAN—HAWAIIAN ISLANDS—MANI.

Maalaea—Alteration in lights—Bell-bay withdrawn.

No. 183 (second publication).—The British Admiralty has given notice (No. 418 of 1906) that, on or about 1st May 1906, a red fixed lantern light, elevated 75 feet above high water, and 34 feet above the ground, will be established on a lead-coloured mast, having a small white house with red roof at its base, erected on McGregor point, in the south-western part of Maalaea bay; it has been placed on the plan on chart No. 3534 at a distance of 11 cables S. 27° W. from the Maalaea pier head.

Approximate position, lat. $20^{\circ} 46\frac{3}{4}'$ N., long. $156^{\circ} 31\frac{1}{2}'$ W.

Also, that the red fixed light shown on the western corner of the wharf in Maalaea bay would be discontinued, and the bell buoy marking the anchorage would be withdrawn on April 30th.

(Variation 10° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Sandwich islands, No. 1510; Maalaea bay on chart No. 3534: Also, List of Lights, part VII, 1906, page 97, No. 542; Pacific Islands, vol. III, 1900, page 214.

AUSTRALIA.—WHITE BAY BAR.

Hook Point—Square beacons Shifted.

No. 184 (second publication).—The Portmaster, Brisbane, has given notice (No. 1 of 1906) that, owing to alteration in the channel, the square beacons on Hook Point have been shifted and must now be kept in line bearing S. 81° W. magnetic when crossing Wide Bay Bar.

Charts affected, Nos. 1030 and 1068; Australian Directory, vol. 2.

INDIA, WEST—MALABAR COAST.

Talayi—Buoy marking Pinnacle rock removed.

No. 185 (second publication).—With reference to Notice to Mariners No. 396, dated 18th October 1905, issued by this office, the Presidency Port Officer, Madras, has given further notice (No. 7 of 1906) that the small spherical buoy marking the pinnacle rock off the sub-port of Talayi will be removed on the 25th May 1906 for overhaul and will be replaced about the 1st October 1906 when the working season again commences.

The mean pressure, temperature, &c., are deduced from the traces of the barograph and thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 a.m. of that day.

d, drizzling rain; <, lightning; ♂, dust-storm.
